

SWEET HOME HIGH SCHOOL

PROPOSED PROJECTS AT SWEET HOME HIGH SCHOOL IF THE BOND PASSES INCLUDE:

Safety and security improvements

Replace select single pane windows with energy efficient windows

Upgrade network fiber. Doing so will increase bandwidth speed and capacity, improve network reliability and allow existing fiber to fully support the school's security monitoring system.

If the bond passes, it is structured to not increase the tax rate

The proposed \$4 million bond, if passed, would be structured to not increase the current bond tax rate of \$1.62 per \$1,000 of assessed value. Debt service payments for the proposed bond would largely replace debt service payments that were eliminated when the district refinanced a 2001 voter approved bond at lower interest rates eliminating over \$5 million in debt service payments.

Actual tax rates may differ, depending on interest rates incurred and change in assessed value.

Depending on interest rates, a final partial year payment may be necessary during the 2029-30 fiscal year at a tax rate that is less than the current bond tax rate before all district bonds are fully paid off.

Proposed Bond Deliverables

Safety, security and facility improvements at all schools

Renovate Junior High to significantly extend its lifespan and improve the learning environment

Structured to maintain the current tax rate

Sweet Home receives a \$4 million matching grant if proposed bond passes
