Certification of Health Care Provider

Employee's Serious Health Condition

TO BE COMPLETED BY THE DISTRICT

The Family Medical Leave Act (FMLA) provides that a district may require an employee seeking FMLA leave protections because of a need for leave due to a serious health condition to submit a medical certification issued by the employee's health care provider. Employees may not be asked to provide more information than allowed under the FMLA regulations. The district will maintain records and documents relating to medical certification, re-certifications, or medical histories of employee's family members, created for FMLA purposes, as confidential medical records in separate files from personnel files and in accordance with 29 C.F.R. § 1630.14(c)(1), if the Americans with Disabilities Act applies.
