INDEPENDENT AUDITOR'S REPORT

To the Board of Directors
Sweet Home School District No. 55
Linn County, Oregon

Report on the Financial Statements

We have audited the accompanying basic financial statements of the governmental activities, each major fund, and the remaining fund information of Sweet Home School District (the District), as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these basic financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of basic financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these basic financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the basic financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the basic financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the basic financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the preparation and fair presentation of the basic financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the basic financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the basic financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the remaining fund information of Sweet Home School District, as of June 30, 2018, and the respective changes in financial position, thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

The District adopted provisions of GASB Statement No. 75 *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions* for the year ended June 30, 2018. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the required supplementary information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the schedules of changes in total pension liability for stipends or health insurance or the schedules of net pension liability and contributions for PERS or management's discussion and analysis because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance on them.

The budgetary comparison schedules presented as Required Supplementary Information, as listed in the table of contents, have been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America, and in our opinion are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. The supplementary information, as listed in the table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations (CRF) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, and is not a required part of the basic financial statements. The supplementary information and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information, as listed in the table of contents, and the schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

The listing of board members containing their term expiration dates, located before the table of contents, and the other information, as listed in the table of contents, have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Reports on Other Legal and Regulatory Requirements

In accordance with *Government Auditing Standards*, we have also issued our report dated December 11, 2018, on our consideration of the internal control over financial reporting and on our tests of compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering internal control over financial reporting and compliance.

In accordance with Minimum Standards for Audits of Oregon Municipal Corporations, we have issued our report dated December 11, 2018, on our consideration of compliance with certain provisions of laws and regulations, including the provisions of Oregon Revised Statutes as specified in Oregon Administrative Rules. The purpose of that report is to describe the scope of our testing of compliance and the results of that testing and not to provide an opinion on compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A)

As management of the Sweet Home School District No. 55 (The District), we offer readers this narrative overview and analysis of the District's financial activities for the fiscal year ended June 30, 2018. We encourage readers to consider this information presented here in conjunction with additional information in the annual report following this MD&A.

The annual report consists of a series of financial statements. The Statement of Net Position and the Statement of Activities provide information about the activities of the District as a whole and present a longer-term view of the District's finances. Fund financial statements tell how these services were financed in the short-term and also show what remains for future spending. Fund financial statements also report the District's operations in more detail than the government-wide statements.

FINANCIAL HIGHLIGHTS

The District's net position in the government-wide financial statements improved by \$3,581,795 from <\$2,816,084> on June 30, 2017 to \$765,711 on June 30, 2018. The improvement in net position was partly due to an overall increase in the General Fund, Special Revenue Fund and Debt Service Fund ending fund balances by \$1,792,345.

The District also completed a \$1,433,966 seismic renovation project for the Sweet Home High School auditorium during the 2017-2018 fiscal year utilizing state seismic grant funds. The auditorium renovation is reported on the Statement of Net Position as a capital asset. Since the project was grant funded, there is no corresponding liability for debt service.

Other financial highlights include:

- The District issued \$3,820,000 in General Obligation bonds at a premium, realizing total proceeds of \$4,077,069 during the 2017-2018 fiscal year. The proceeds of the bond issue will primarily be used to renovate Sweet Home Junior High School. By passing the bond, the District will also receive a \$4,000,000 state facility improvement grant. The grant will operate as a reimbursement grant that provides funding after expenses have been incurred.
- The Statement of Net Position includes an \$8,958,934 net pension liability balance. This amount represents the District's share of the PERS pension system's net pension liability as of the most recent reporting date of December 31, 2017.
- The District implemented GASB 75 (Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions). The accounting change is reflected in the Statement of Net Position as a \$936,870 liability related to an implicit subsidy provided to retired employees for health insurance premiums.

- According to the most recent actuarial valuation report completed by Milliman, Inc. the value of the District's PERS pension side account as of December 31, 2017 was \$20,803,106. The side account balance is used to offset current and future employer PERS contribution rates. The side account balance is a component in the net pension liability calculation. However, the side account balance's value is not reported as an asset in the government-wide financial statements.
- The General Fund ending fund balance increased by \$320,418 from \$2,206,401 on June 30, 2017 to \$2,526,819 on June 30, 2018. The increase in the General Fund's ending balance was primarily due to additional local and state revenue along with savings realized from a decrease in charter school expenditures as more students chose to attend district operated schools. The June 30, 2018 fund balance was 10.8 percent of the General Fund's fiscal year revenues.
- The Special Revenue Fund ending fund balance increased by \$1,241,940 from \$3,299,250 on June 30, 2017 to \$4,541,190 on June 30, 2018. Funds reserved for long term maintenance, energy conservation projects, and future curriculum purchases all grew during the year.
- The Debt Service Fund ending fund balance increased by \$229,987 from \$3,775,440 on June 30, 2017 to \$4,005,427 on June 30, 2018. The District continues to set aside funds to prepare for future pension obligation debt service payments which are expected to grow at a faster rate than salaries and wages.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements: The government-wide financial statements are designed to provide readers with a broad overview of the District's finances in a manner similar to a private-sector business. These statements include:

The Statement of Net Position: The Statement of Net Position presents information on all the District's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The Statement of Activities: The Statement of Activities presents information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event given rise to the change occurs, regardless of the timing of related cash flows.

In the government-wide financial statements, the District's activities are shown in one category as governmental activities. Most of the District's basic functions are shown here, including regular and special education, child nutrition services, transportation, administration, and facilities acquisition and construction. These activities are primarily financed through property taxes, the Oregon State School Fund and other intergovernmental revenues.

Governmental fund financial statements: The governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide

financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of available resources, as well as on balances of available resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the District's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

Fund financial statements: The fund financial statements provide more detailed information about the District's funds, focusing on its most significant or "major" funds instead of the District as a whole. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Sweet Home School District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Notes to the basic financial statements: The notes to the basic financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Total net position	(2,816,084)	765,711	3,581,795

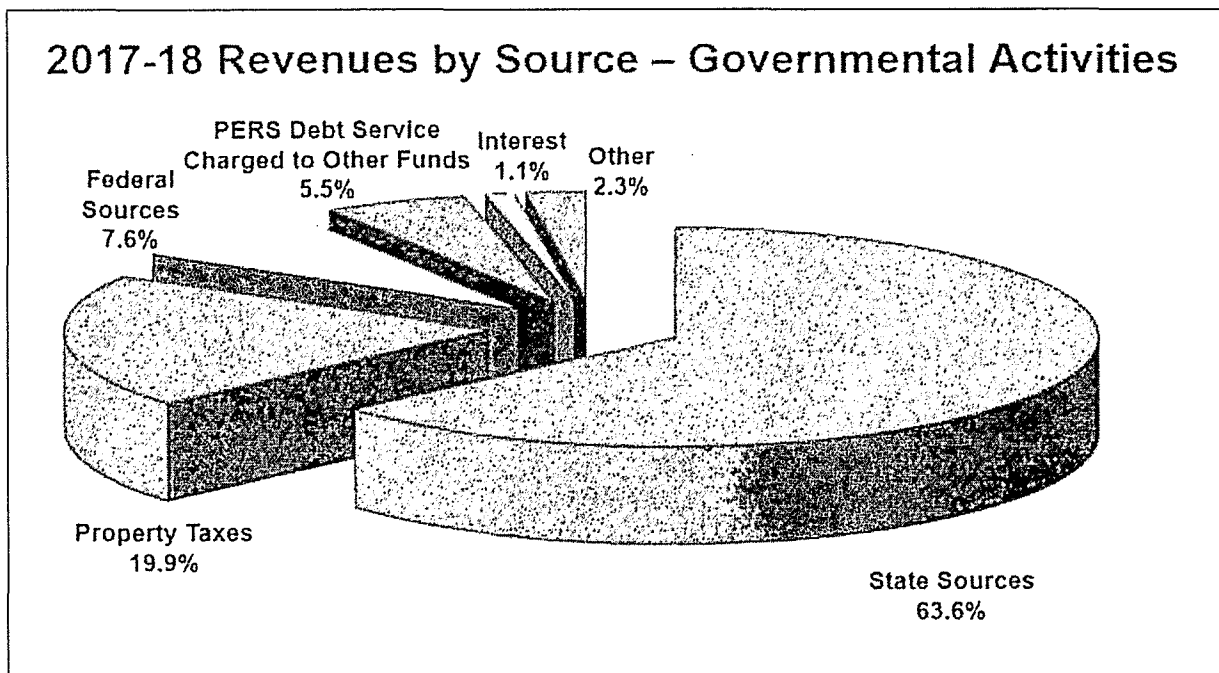

Net Position: As noted earlier, net position may serve over time as a useful indicator of a government's financial position. During the 2017-2018 fiscal year, the District's net position improved by \$3,581,795.

Net investment in capital assets, net of related debt decreased by \$1,811,877 as the District issued \$3,820,000 in General Obligation bonds for future capital projects. The increase in debt was partially offset by asset additions and debt repayments exceeding the District's depreciation expense. The district completed work on a seismic project at Sweet Home's High School's auditorium and also began work on a seismic project at Hawthorne Elementary School utilizing state seismic grant funds.

Restricted net position represents the unspent portions of capital project funds, debt service funds and net assets restricted by grants, donations and leases. Restricted net position increased by \$5,674,079 this year. The increase is primarily due to the District issuing \$3,820,000 in General Obligation bonds to fund capital improvements.

Unrestricted net position is the balancing amount to bring Total Net Position to equal the difference between assets/deferred outflows of resources and liabilities/deferred inflows of resources.

Revenues: Governmental Funds revenues increased by \$3,964,527 from \$27,664,426 during the 2016-2017 fiscal year to \$31,628,953 during the 2017-2018 fiscal year. Local revenue increased by \$431,330, state revenue increased by \$3,379,489 and federal source revenue increased by \$196,611 while intermediate source revenue decreased by \$42,903. The substantial increase in state revenue was due to state seismic grants and higher State School Fund payments.

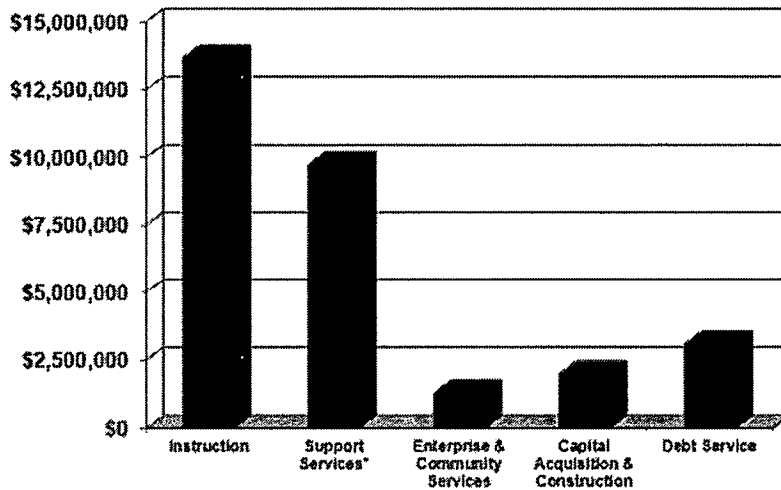

Expenditures: Governmental funds expenditures increased by \$3,776,176 from \$25,999,863 during the 2016-2017 fiscal year to \$29,776,039 during the 2017-2018 fiscal year. Most of the increase was due to facility acquisition as the District completed a seismic upgrade at the Sweet Home High School auditorium and began a seismic upgrade at Hawthorne Elementary School during the 2017-2018 fiscal year.

Debt Administration

As of June 30, 2018, the District has a total of \$27,251,848 in bonds outstanding. The bond balance includes:

- \$15,330,000 in general obligation bonds. The District originally issued general obligation bonds during the 2000-2001 fiscal year. A portion of these bonds was refinanced at a lower interest rate in 2005 and the remaining portion of the bonds was refinanced at a lower interest rate in 2006. The 2005 and 2006 series bonds were then refinanced at a lower interest rate during the 2014-2015 fiscal year. The District's 2014-2015 refinancing accelerated the repayment schedule. Debt service payments due in the 2027-2028 and 2028-2029 fiscal years were eliminated and a debt service payment due in the 2026-2027 fiscal year was reduced by more than half. In May 2017, voters approved a bond for safety, security and facility improvements. In September 2017, the District issued \$3,820,000 in general obligation bonds at a premium. The net proceeds after all issuance costs totaled \$4,003,406. The final payment on the 2017 series bonds is scheduled for February 2029.

- \$11,921,848 in pension obligation bonds issued during the 2002-03 fiscal year. Maturities continue through 2028. The pension obligation bond balance reflects the District's decision to participate in the Oregon School Boards Association's Pooled PERS Bond Program. Bond proceeds were invested with the Oregon Public Employees Retirement System to reduce the District's unfunded pension liability. Savings are achieved when investment returns exceed the debt service on the bonds.

Including interest plus principal payments, the remaining general obligation bond debt service payments total \$18,659,500 and the remaining pension obligation bond debt service payments total \$19,409,853.

PERS Pension Side Account Balance and Unfunded Actuarial Valuation

According to the most recent actuarial valuation report completed by Milliman, Inc. the value of the District's PERS pension side account as of December 31, 2017 was \$20,803,106. The side account balance is used to offset current and future employer PERS contribution rates. The following table reconciles the side account balance during the 2017 calendar year:

Side account as of December 31, 2016	\$20,142,995
Deposits during 2017	\$0
Administrative expense	-\$1,000
Amount transferred to employer reserves during 2017	-\$2,327,485
Side account earnings during 2017	\$2,988,596
Side account as of December 31, 2017	\$20,803,106

Source: Milliman, Inc. Actuarial Valuation Report December 31, 2017 Oregon Public Employees
Retirement System School District Pool Sweet Home School District #55 -- #3618
Published: October 2018

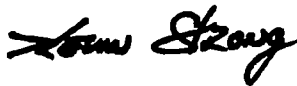

This valuation in the MD&A is provided for informational purposes only. As noted earlier, the June 30, 2018 government-wide financial statements do not directly include the District's side account balance.

2018-2019 Budget

The budget for the 2018-2019 fiscal year has total appropriations of \$54,633,731 as compared to the 2017-2018 budget of \$50,310,863, an increase of 8.6 percent. The budget includes bond funds that will primarily be used to renovate Sweet Home Junior High School and state seismic grant funds for work scheduled at Hawthorne Elementary, Foster Elementary and Holley Elementary Schools. The General Fund budget increased by \$1,725,572 primarily due to carryover funds from the prior fiscal year and additional state revenue.

Requests for Information

The financial report is designed to provide taxpayers, parents, employees, students, investors and creditors with an overview of the District's finances. If you have questions about this report, please contact the Sweet Home School District Business Office.

NOTES TO THE BASIC FINANCIAL STATEMENTS

This Page Intentionally Left Blank

SWEET HOME SCHOOL DISTRICT NO. 55
LINN COUNTY, OREGON

NOTES TO BASIC FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Basic Financial Statements have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the accounting policies are described below.

A. THE FINANCIAL REPORTING ENTITY

The Sweet Home School District No. 55 (the District) is a municipal corporation governed by an elected Board of Directors. The District was organized under provisions of Oregon Statutes Chapter 332 for the purpose of operating elementary and secondary schools. As required by accounting principles generally accepted in the United States of America, these Basic Financial Statements present Sweet Home School District No. 55 (the primary government) and any component units. The District qualifies as a primary government since it has a separately elected governing body, is a legally separate entity, and is fiscally independent. Accounting principles generally accepted in the United States of America require that these financial statements present the District and all component units, if any. Component units, as established by the Governmental Accounting Standards Board (GASB) Statement 61 are separate organizations that are included in the District's reporting District because of the significance of their operational or financial relationships with the District. There are no component units.

B. MEASUREMENT FOCUS, BASIS OF ACCOUNTING AND BASIS OF PRESENTATION

Government Wide Financial Statements (GWFS)

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) display information about the reporting government as a whole. Fiduciary funds are not included in the GWFS. Fiduciary funds are reported only in the Statement of Fiduciary Net Position at the fund financial statement level.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues, expenses, gains, losses, assets and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place. Revenues, expenses, gains, losses, assets and liabilities resulting from non-exchange transactions are recognized in accordance with GASB Statement No. 33 "Accounting and Financial Reporting for Non-exchange Transactions." Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

All direct expenses are reported by function in the Statement of Activities. The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Interest on general long-term debt is considered an indirect expense and it reported separately on the Statement of Activities.

SWEET HOME SCHOOL DISTRICT NO. 55
LINN COUNTY, OREGON

NOTES TO BASIC FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Program revenues derive directly from the program itself or from parties outside the District's taxpayers or citizenry, as a whole. Program revenues reduce the cost of the function to be financed from the District's general revenues and include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

In the process of aggregating data for the Statement of Net Position and the Statement of Activities, some amounts reported as interfund activity and balances in the funds were eliminated or reclassified. Interfund receivables and payables were eliminated to minimize the "grossing up" effect on assets and liabilities.

Fund Financial Statements

The accounts are organized and operated on the basis of funds. A fund is an independent fiscal and accounting entity with a self-balancing set of accounts. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance-related legal and contractual provisions. The minimum numbers of funds are maintained consistent with legal and managerial requirements.

Governmental Fund Types

Governmental funds are used to account for general governmental activities. Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized as soon as they are both measurable and available. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to pay liabilities of the current period, which is 60 days. Expenditures generally are recorded when a liability is incurred, except for unmatured interest on general long-term debt which is recognized when due, interfund transactions, and certain compensated absences which are recognized as expenditures because they will be liquidated with expendable financial resources.

Revenues susceptible to accrual are interest, state, county and local shared revenue and federal and state grants. Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other grant requirements have been met.

There are the following major governmental funds:

General Fund

This fund accounts for all financial resources and expenditures, except those required to be accounted for in another fund. The principal revenue sources are property taxes and an apportionment from the State of Oregon School Support Fund.

Special Revenue Fund

This fund accounts for revenues and expenditures of grants restricted for specific educational projects. The principal revenue source is restricted federal, state and local grants.

SWEET HOME SCHOOL DISTRICT NO. 55
LINN COUNTY, OREGON

NOTES TO BASIC FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Debt Service Fund

This fund accounts for the resources accumulated and payments made for principal and interest on long-term general obligation debt of governmental funds, and for the one time receipt and disbursements to escrow of the proceeds of the 2002 and 2003 limited tax pension obligation bonds.

Capital Projects Fund

This fund accounts for the proceeds of bonds and capital improvements that are funded by the bonds.

Additionally, there is the following other fund type:

Fiduciary Fund

This fund type is comprised of Agency Funds which account for the transactions of the District's student body activity accounts, and a Trust fund which accounts for the Josai and Youth Initiative programs and other trust funds.

Use of Estimates

The preparation of basic financial statements in conformity with accounting principles generally accepted in the United States of America requires the management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the basic financial statements and reported amounts of revenues, expenditures and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

The cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

Fair Value Inputs and Methodologies and Hierarchy

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Observable inputs are developed based on market data obtained from sources independent of the reporting entity. Unobservable inputs are developed based on the best information available about the assumptions market participants would use in pricing the asset. The classification of securities within the fair value hierarchy is based up on the activity level in the market for the security type and the inputs used to determine their fair value, as follows:

Level 1 – unadjusted price quotations in active markets/exchanges for identical assets or liabilities that each Fund has the ability to access

Level 2 – other observable inputs (including, but not limited to, quoted prices for similar assets or liabilities in markets that are active, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, loss severities, credit risks and default rates) or other market-corroborated inputs)

Level 3 – unobservable inputs based on the best information available in the circumstances, to the extent observable inputs are not available (including each Fund's own assumptions used in determining the fair value of investments)

SWEET HOME SCHOOL DISTRICT NO. 55
LINN COUNTY, OREGON

NOTES TO BASIC FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in Level 3. The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the fair value hierarchy classification is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

Property Taxes

Uncollected real and personal property taxes are reflected on the Statement of Net Position and the balance sheet as receivables. Uncollected taxes are deemed by management to be substantially collectible or recoverable through liens; therefore no allowance for uncollectible taxes has been established. All property taxes receivable are due from property owners within the District.

Under state law, county governments are responsible for extending authorized property tax levies, computing tax rates, billing and collecting all property taxes, and making periodic distributions of collections to entities levying taxes. Property taxes become a lien against the property when levied on July 1 of each year and are payable in three installments due on November 15, February 15 and May 15. Property tax collections are distributed monthly except for November, when such distributions are made weekly.

Grants

Unreimbursed expenditures due from grantor agencies are reflected in the basic financial statements as receivables and revenues. Grant revenues are recorded at the time eligible expenditures are incurred. Cash received from grantor agencies in excess of related grant expenditures is recorded as a liability in the balance sheet and Statement of Net Position.

Supply Inventories

All supply inventories are valued at cost (first-in, first-out method). Inventories of governmental funds are recorded as expenditures when purchased. Management has determined that supply inventories are immaterial, and accordingly there are no inventories reported in the financial statements.

Capital Assets

Capital assets, which include land, buildings and improvements, and equipment, are reported in the government wide financial statements. Capital assets are assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of two years. Capital assets are recorded at historical cost or estimated historical cost. Donated capital assets are recorded at their estimated fair market value on the date donated. The cost of routine maintenance and repairs that do not add to the value of the assets or materially extend asset lives are charged to expenditures as incurred and not capitalized. Capital assets are depreciated using the straight-line method over the following useful lives:

Buildings and Improvements	20 to 50 years
Vehicles and Equipment	5 to 15 years

NOTES TO BASIC FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Deferred Inflows and Outflows of Resources

In addition to assets, the basic financial statements will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to future periods and so will not be recognized as an outflow of resources (expense/expenditure) until then. The District has two types of items which qualify for reporting in this category. Loss on Refunding of \$260,934 is deferred and recognized as an outflow of resources in the period that the amount becomes available. At June 30, 2018 there were deferred outflows of \$6,988,642 representing PERS pension related deferrals in the Statement of Net Position.

In addition to liabilities, the basic financial statements will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to future periods and so will not be recognized as an inflow of resources (revenue) until that time. The District has two types of items which qualify for reporting in this category. Unavailable revenue from property taxes, in the amount of \$556,063 is reported only in the governmental funds balance sheet. This amount is deferred and recognized as an inflow of resources in the period that the amount becomes available. At June 30, 2018 there were also deferred inflows of \$813,503 reported in the Statement of Net Position representing PERS pension related deferrals.

Long Term Obligations

In the government-wide financial statements long-term debt and other long-term obligations are reported as liabilities in the governmental activities. Bond premiums and discounts are deferred and amortized over the life of the bonds using the bonds outstanding method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Retirement Plans

Substantially all of the District's employees are participants in the State of Oregon Public Employees Retirement System (PERS). For the purpose of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about fiduciary net position of PERS and additions to/deductions from PERS's fiduciary net position have been determined on the same basis as they are reported by PERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Vested Compensated Absences

It is the policy to permit employees to accumulate earned unused vacation pay benefits. There is no liability for unpaid accumulated sick leave since there is no policy to pay any amounts when employees separate from service with the District. All vacation pay is accrued in the government wide statements. A liability is

SWEET HOME SCHOOL DISTRICT NO. 55
LINN COUNTY, OREGON

NOTES TO BASIC FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

accrued in the governmental funds because vacation pay is expected to be liquidated with expendable available resources.

Interfund Transactions

Transactions that constitute reimbursements to a fund for expenditures initially made from it that are properly applicable to another fund are recorded as expenditures in the reimbursing fund and as reductions of expenditures in the fund that is reimbursed. Operating interfund transactions are reported as transfers.

Net Position

Net position is comprised the various net earnings from operations, nonoperating revenues, expenses and contributions of capital. Net position is classified in the following three categories:

Net investment in capital assets – consists of all capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.

Restricted – consists of external constraints placed on net position use by creditors, grantors, contributors, or laws or regulations of other governments or constraints imposed by law through constitutional provisions or enabling legislation. There is net position restricted for debt service and grants.

Unrestricted net position – consists of all other net position that is not included in the other categories previously mentioned.

Fund Balance

GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund-type Definitions* is followed. The objective of this statement is to enhance the usefulness of fund balance information by providing clearer fund balance classifications that can be more consistently applied and by clarifying the existing governmental fund-type definitions. This statement establishes fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed on the use of the resources reported in governmental funds. Under this standard, the fund balance classifications are nonspendable, restricted, committed, assigned, and unassigned.

- Nonspendable fund balance represents amounts that are not in a spendable form. The nonspendable fund balance represents inventories and prepaid items.
- Restricted fund balance represents amounts that are legally restricted by outside parties for a specific purpose (such as debt covenants, grant requirements, donor requirements, or other governments) or are restricted by law (constitutionally or by enabling legislation).
- Committed fund balance represents funds formally set aside by the governing body for a particular purpose. The use of committed funds would be approved by resolution.

SWEET HOME SCHOOL DISTRICT NO. 55
LINN COUNTY, OREGON

NOTES TO BASIC FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

- Assigned fund balance represents amounts that are constrained by the expressed intent to use resources for specific purposes that do not meet the criteria to be classified as restricted or committed. Intent can be stipulated by the governing body or by an official or officers to whom that authority has been given by the governing body.
- Unassigned fund balance is the residual classification of the General Fund. Only the General Fund may report a positive unassigned fund balance. Other governmental funds would report any negative residual fund balance as unassigned.

There were no nonspendable, committed, or assigned fund balances at June 30, 2018.

The governing body has approved the following order of spending regarding fund balance categories: Restricted resources are spent first when both restricted and unrestricted (committed, assigned or unassigned) resources are available for expenditures. When unrestricted resources are spent, the order of spending is committed (if applicable), assigned (if applicable) and unassigned.

2. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

Budgetary Information

A budget is prepared and legally adopted for each governmental fund type on the modified accrual basis of accounting in the main program categories required by Oregon Local Budget Law. The budgets for all budgeted funds are adopted on a basis consistent with generally accepted accounting principles except the property taxes received after year-end are not considered budgetary resources in the funds, capital assets are expensed when purchased, inventory is expensed when purchased, long term debt is expensed when paid, depreciation and amortization expense is not reported, and pension costs and OPEB liabilities are expensed when paid.

The budgeting process is begun by appointing Budget Committee members in early fall. Budget recommendations are developed by management through spring, with the Budget Committee meeting and approving the budget document in late spring. Public notices of the budget hearing are generally published in May or June, and the hearing is held in June. The budget is adopted, appropriations are made and the tax levy is declared no later than June 30. Expenditure budgets are appropriated at the major function level (instruction, support services, community services, debt service, contingency, and transfers) for each fund. Expenditure appropriations may not legally be over expended, except in the case of grant receipts which could not be reasonably estimated at the time the budget was adopted.

Unexpected additional resources may be added to the budget through the use of a supplemental budget and appropriation resolution. Supplemental budgets less than 10% of the fund's original budget may be adopted by the Board of Directors at a regular meeting. A supplemental budget greater than 10% of the fund's original budget requires hearings before the public, publication in newspapers and approval by the Board. Original and supplemental budgets may be modified by the use of appropriation transfers between the levels of control (major function levels). Such transfers require approval by the Board.

Budget amounts shown in the basic financial statements include the original budget amounts and appropriation transfers approved by the Board. Appropriations lapse at the end of each fiscal year.

Expenditures of the various funds were within authorized appropriations.

3. CASH AND INVESTMENTS

The cash management policies are governed by state statutes. Statutes authorize investing in bankers acceptances, time certificates of deposit, commercial paper, repurchase agreements, obligations of the United States and its agencies and instrumentalities and Local Government Investment Pools.

A cash pool is maintained that is available for use by all funds. Each fund type's portion of this pool is reported on the combined balance sheet as Cash and Investments, except for the Fiduciary Fund, which is reported on a separate statement.

Cash and Investments at June 30, 2018 (recorded at fair value) consisted of:

Deposits with Financial Institutions:	
Demand Deposits	\$ 1,207,540
Investments	<u>15,631,617</u>
Total	<u><u>\$ 16,839,157</u></u>

Reported In:	
Governmental Funds	\$ 15,086,652
Fiduciary Funds	<u>1,752,505</u>
Total	<u><u>\$ 16,839,157</u></u>

Deposits

Deposits with financial institutions include bank demand deposits. Oregon Revised Statutes require deposits to be adequately covered by federal depository insurance or deposited at an approved depository as identified by the Treasury. The total bank balance per the bank statements as of June 30, 2018 was \$1,501,119, of which \$302,905 was covered by federal depository insurance and the remainder was collateralized by the Oregon Public Funds Collateralization Program (PFCP).

Investments

Statutes authorize investing in obligations of the U.S. Treasury and U.S. agencies, bankers' acceptances, repurchase agreements, commercial paper rated A-1 by Fitch Ratings and Standard & Poor's Corporation or P-1 by Moody's Commercial Paper Record (A-2/P-2 if Oregon commercial paper) and the state treasurer's investment pool.

Investments in the Local Government Investment Pool (LGIP) are included in the Oregon Short-Term Fund, which is an external investment pool that is not a 2a-7-like external investment pool, and is not registered with the U.S. Securities and Exchange Commission as an investment company. Fair value of the LGIP is calculated at the same value as the number of pool shares owned. The unit of account is each share held, and the value of the position would be the fair value of the pool's share price multiplied by the number of shares held. Investments in the Short-Term Fund are governed by ORS 294.135, Oregon Investment Council, and portfolio guidelines issued by the Oregon Short-Term Fund Board, which establish diversification percentages and specify the types and maturities of investments. The portfolio guidelines permit securities lending transactions as well as investments in repurchase agreements and reverse repurchase agreements. The fund's compliance with all portfolio guidelines can be found in their annual report when issued. The LGIP seeks to exchange shares at \$1.00 per share; an investment in the LGIP is

neither insured nor guaranteed by the FDIC or any other government agency. Although the LGIP seeks to maintain the value of share investments at \$1.00 per share, it is possible to lose money by investing in the pool. We intend to measure these investments at book value since it approximates fair value. The pool is comprised of a variety of investments. These investments are characterized as a level 2 fair value measurement in the Oregon Short Term Fund's audited financial report. Amounts in the State Treasurer's Local Government Investment Pool are not required to be collateralized. The audited financial reports of the Oregon Short Term Fund can be found here:

Total	\$ 15,631,617	\$15,631,617	\$ -	\$ -

Interest Rate Risk - Investments

Oregon Revised Statutes require investments to not exceed a maturity of 18 months, except when the local government has adopted a written investment policy that was submitted to and reviewed by the OSTFB.

Credit Risk – Deposits

In the case of deposits, this is the risk that in the event of a bank failure, deposits may not be returned. There is no deposit policy for custodial credit risk.

Credit Risk – Investments

Oregon Revised Statutes does not limit investments as to credit rating for securities purchased from US Government Agencies or USGSE. The State Investment Pool is not rated.

Concentration of Credit Risk

At June 30, 2018, 100% of total investments were in the State Treasurer's Investment Pool. State statutes do not limit the percentage of investments in this instrument.

6. DEFINED BENEFIT PENSION PLAN

Plan Description – The Oregon Public Employees Retirement System (PERS) consists of a single cost-sharing multiple-employer defined benefit plan. All benefits of the system are established by the legislature pursuant to Oregon Revised Statute (ORS) Chapters 238 and 238A. Oregon PERS produces an independently audited Comprehensive Annual Financial Report which can be found at:

<http://www.oregon.gov/pers/Documents/Financials/CAFR/2017-CAFR.pdf>

If the link is expired please contact Oregon PERS for this information.

- a. **PERS Pension (Chapter 238).** The ORS Chapter 238 Defined Benefit Plan is closed to new members hired on or after August 29, 2003.
 - i. **Pension Benefits.** The PERS retirement allowance is payable monthly for life. It may be selected from 13 retirement benefit options. These options include survivorship benefits and lump-sum refunds. The basic benefit is based on years of service and final average salary. A percentage (2.0 percent for police and fire employees, and 1.67 percent for general service employees) is multiplied by the number of years of service and the final average salary. Benefits may also be calculated under either a formula plus annuity (for members who were contributing before August 21, 1981) or a money match computation if a greater benefits results. A member is considered vested and will be eligible at minimum retirement age for a service retirement allowance if he or she has had a contribution in each of five calendar years or has reached at least 50 years of age before ceasing employment with a participating employer (age 45 for police and fire members). General service employees may retire after reaching age 55. Police

and fire members are eligible after reaching age 50. Tier 1 general service employee benefits are reduced if retirement occurs prior to age 58 with fewer than 30 years of service. Police and fire member benefits are reduced if retirement occurs prior to age 55 with fewer than 25 years of service. Tier 2 members are eligible for full benefits at age 60. The ORS Chapter 238 Defined Benefit Pension Plan is closed to new members hired on or after August 29, 2003.

- ii. **Death Benefits.** Upon the death of a non-retired member, the beneficiary receives a lump-sum refund of the member's account balance (accumulated contributions and interest). In addition, the beneficiary will receive a lump-sum payment from employer funds equal to the account balance, provided on or more of the following contributions are met:
 - member was employed by PERS employer at the time of death,
 - member died within 120 days after termination of PERS covered employment,
 - member died as a result of injury sustained while employed in a PERS-covered job, or
 - member was on an official leave of absence from a PERS-covered job at the time of death.
 - iii. **Disability Benefits.** A member with 10 or more years of creditable service who becomes disabled from other than duty-connected causes may receive a non-duty disability benefit. A disability resulting from a job-incurred injury or illness qualifies a member (including PERS judge members) for disability benefits regardless of the length of PERS-covered service. Upon qualifying for either a non-duty or duty disability, service time is computed to age 58 (55 for police and fire members) when determining the monthly benefit.
 - iv. **Benefit Changes After Retirement.** Members may choose to continue participation in a variable equities investment account after retiring and may experience annual benefit fluctuations due to changes in the market value equity investments. Under ORS 238.360 monthly benefits are adjusted annually through cost-of-living changes. The cap on the COLA will vary based on the amount of the annual benefit.
- b. **OPSRP Pension Program (OPSRP DB).** The ORS Chapter 238A Defined Benefit Pension Program provides benefits to members hired on or after August 29, 2003.
- i. **Pension Benefits.** This portion of OPSRP provides a life pension funded by employer contributions. Benefits are calculated with the following formula for members who attain normal retirement age:
Police and fire: 1.8 percent is multiplied by the number of years of service and the final average salary. Normal retirement age for police and fire members is age 60 or age 53 with 25 years of retirement credit. To be classified as a police and fire member, the individual must have been employed continuously as a police and fire member for at least five years immediately preceding retirement.
General service: 1.5 percent is multiplied by the number of years of service and the final average salary. Normal retirement age for general service members is age 65, or age 58 with 30 years of retirement credit.
A member of the pension program becomes vested on the earliest of the following dates: the date the member completes 600 hours of service in each of five calendar years, the date the member reaches normal retirement age, and, if the pension program is terminated, the date on which termination becomes effective.
 - ii. **Death Benefits.** Upon the death of a non-retired member, the spouse or other person who is constitutionally required to be treated in the same manner as the spouse, receives for life 50 percent of the pension that would otherwise have been paid to the deceased member.
 - iii. **Disability Benefits.** A member who has accrued 10 or more years of retirement credits before the member becomes disabled or a member who becomes disabled due to job-related injury shall receive a disability benefit of 45 percent of the member's salary determined as of the last full month of employment before the disability occurred.

- iv. **Benefit Changes After Retirement.** Under ORS 238A.210 monthly benefits are adjusted annually through cost-of-living changes. The cap on the COLA will vary based on the amount of the annual benefit.

Contributions

PERS funding policy provides for monthly employer contributions at actuarially determined rates. These contributions, expressed as a percentage of covered payroll, are intended to accumulate sufficient assets to pay benefits when due. The funding policy applies to the PERS Defined Benefit Plan and the Other Postemployment Benefit Plans. Employer contribution rates during the period were based on the December 31, 2015 actuarial valuation, which became effective July 1, 2017. The state of Oregon and certain schools, community colleges, and political subdivision have made unfunded actuarial liability payments and their rates have been reduced. Employer contributions for the year ended June 30, 2018 were \$2,776,406, excluding amounts to fund employer specific liabilities.

Pension Asset or Liability

At June 30, 2018, the District reported a net pension liability of \$8,958,934 for its proportionate share of the net pension liability. The pension liability was measured as of June 30, 2017 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of December 31, 2015. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. As of the measurement dates of June 30, 2017 and 2016, the District's proportion was .066 and .050 percent respectively. Pension expense for the year ended June 30, 2018 was \$206,673.

The rates in effect for the year ended June 30, 2018 were:

- (1) Tier 1/Tier 2 – 5.89%
- (2) OPSRP General – 0.56%

Actuarial Valuations – The employer contribution rates effective July 1, 2017 through June 30, 2019, were set using the entry age normal actuarial cost method. For the Tier One/Tier Two component of the PERS Defined Benefit Plan, this method produced an employer contribution rate consisting of (1) an amount for normal cost (estimated amount necessary to finance benefits earned by employees during the current service year), (2) an amount for the amortization unfunded actuarial accrued liabilities, which are being amortized over a fixed period with new unfunded actuarial liabilities being amortized over 20 years.

For the OPSRP Pension Program component of the PERS Defined Benefit Plan, this method produced an employer rate consisting of (a) an amount for normal cost (the estimated amount necessary to finance benefits earned by the employees during the current service year), (b) an actuarially determined amount for funding a disability benefit component, and (c) an amount for the amortization of unfunded actuarial accrued liabilities, which are being amortized over a fixed period with new unfunded actuarial accrued liabilities being amortized over 16 years.

Long-Term Expected Rate of Return:

To develop an analytical basis for the selection of the long-term expected rate of return assumption, in July 2015 the PERS Board reviewed long-term assumptions developed by both Milliman's capital market assumptions team and the Oregon Investment Council's (OIC) investment advisors. The table below shows Milliman's assumptions for each of the asset classes in which the plan was invested at that time based on the OIC long-term target asset allocation. The OIC's description of each asset class was used to map the target allocation to the asset classes shown below. Each asset class assumption is based on a consistent set of underlying assumptions, and includes adjustment for the inflation assumption. These assumptions are not based on historical returns, but instead are based on a forward-looking capital market economic model.

Discount Rate – The discount rates used to measure the total pension liability, as of the measurement dates June 30, 2017 and 2016, were 7.50 and 7.50 percent respectively for the Defined Benefit Pension Plan. The projection of cash flows used to determine the discount rate assumed that contributions from the plan members and those of the contributing employers are made at the contractually required rates, as actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments for the Defined Benefit Pension Plan was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the District's proportionate share of the net pension liability to changes in the discount rate – The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.50 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.50 percent) or 1-percentage-point higher (8.50 percent) than the current rate.

Changes Subsequent to the Measurement Date

As described above, GASB 67 and GASB 68 require the Total Pension Liability to be determined based on the benefit terms in effect at the Measurement Date. Any changes to benefit terms that occurs after that date are reflected in amounts reported for the subsequent Measurement Date. However, Paragraph 80f of GASB 68 requires employers to briefly describe any changes between the Measurement Date and the employer's reporting date that are expected to have a significant effect on the employer's share of the collective Net Pension Liability, along with an estimate of the resulting change, if available.

At its July 28, 2017 meeting, the PERS Board lowered the assumed rate to 7.2 percent. For member transactions, this rate will take effect January 1, 2018. The current assumed rate is 7.5 percent and has been in effect for member transactions since January 1, 2016.

OPSRP Individual Account Program (OPSRP IAP)

Plan Description:

Employees of the District are provided with pensions through OPERS. All the benefits of OPERS are established by the Oregon legislature pursuant to Oregon Revised Statute (ORS) Chapters 238 and 238A. Chapter 238 Defined Benefit Pension Plan is closed to new members hired on or after August 29, 2003. Chapter 238A created the Oregon Public Service Retirement Plan (OPSRP), which consists of the Defined Benefit Pension Program and the Individual Account Program (IAP). Membership includes public employees hired on or after August 29, 2003. PERS members retain their existing defined benefit plan accounts, but member contributions are deposited into the member's IAP account. OPSRP is part of OPERS, and is administered by the OPERS Board.

Pension Benefits:

Participants in OPERS defined benefit pension plans also participate in their defined contribution plan. An IAP member becomes vested on the date the employee account is established or on the date the rollover account was established. If the employer makes optional employer contributions for a member, the member becomes vested on the earliest of the following dates: the date the member completes 600 hours of service in each of five calendar years, the date the member reaches normal retirement age, the date the IAP is terminated, the date the active member becomes disabled, or the date the active member dies. Upon retirement, a member of the OPSRP IAP may receive the amounts in his or her employee account, rollover account, and vested employer account as a lump-sum payment or in equal installments over a 5-, 10-, 15-, 20-year period or an anticipated life span option. Each distribution option has a \$200 minimum distribution limit.

Death Benefits:

Upon the death of a non-retired member, the beneficiary receives in a lump sum the member's account balance, rollover account balance, and vested employer optional contribution account balance. If a retired member dies before the installment payments are completed, the beneficiary may receive the remaining installment payments or choose a lump-sum payment.

Contributions:

Employees of the District pay six (6) percent of their covered payroll. The District did not make any optional contributions to member IAP accounts for the year ended June 30, 2018.

Additional disclosures related to Oregon PERS not applicable to specific employers are available online, or by contacting PERS at the following address: PO BOX 23700 Tigard, OR 97281-3700.

7. OTHER POST-EMPLOYMENT BENEFITS (RHIA)

Plan Description:

As a member of Oregon Public Employees Retirement System (OPERS) the District contributes to the Retirement Health Insurance Account (RHIA) for each of its eligible employees. RHIA is a cost-sharing multiple-employer defined benefit other postemployment benefit plan administered by OPERS. RHIA pays a monthly contribution toward the cost of Medicare companion health insurance premiums of eligible retirees. Oregon Revised Statute (ORS) 238.420 established this trust fund. Authority to establish and amend the benefit provisions of RHIA reside with the Oregon Legislature. The plan is closed to new entrants after January 1, 2004. OPERS issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to Oregon Public Employees Retirement System, PO Box 23700, Tigard, OR 97281-3700.

Funding Policy:

Because RHIA was created by enabling legislation (ORS 238.420), contribution requirements of the plan members and the participating employers were established and may be amended only by the Oregon Legislature. ORS require that an amount equal to \$60 dollars or the total monthly cost of Medicare companion health insurance premiums coverage, whichever is less, shall be paid from the Retirement Health Insurance Account established by the employer, and any monthly cost in excess of \$60 dollars shall be paid by the eligible retired member in the manner provided in ORS 238.410. To be eligible to receive this monthly payment toward the premium cost the member must: (1) have eight years or more of qualifying service in OPERS at the time of retirement or receive a disability allowance as if the member had eight years or more of creditable service in OPERS, (2) receive both Medicare Parts A and B coverage, and (3) enroll in an OPERS-sponsored health plan. A surviving spouse or dependent of a deceased OPERS retiree who was eligible to receive the subsidy is eligible to receive the subsidy if he or she (1) is receiving a retirement benefit or allowance from OPERS or (2) was insured at the time the member died and the member retired before May 1, 1991.

SWEET HOME SCHOOL DISTRICT NO. 55
LINN COUNTY, OREGON

NOTES TO BASIC FINANCIAL STATEMENTS

7. OTHER POST-EMPLOYMENT BENEFITS (RHIA) (CONTINUED)

Participating Districts are contractually required to contribute to RHIA at a rate assessed each year by OPERS, and the District currently contributes 0.50% of annual covered OPERF payroll and 0.43% of OPSRP payroll under a contractual requirement in effect until June 30, 2019. The OPERS Board of Trustees sets the employer contribution rates based on the annual required contribution of the employers (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) of the plan over a period not to exceed thirty years. The District's contributions to RHIA for the year ended June 30, 2018 were considered by management to be immaterial to the basic financial statements.

At June 30, 2018 the District's net OPEB liability/(asset) and deferred inflows and outflows were not considered material to the basic financial statements by management and were not accrued on the government-wide statements.

8. OTHER POST EMPLOYMENT BENEFITS – (EARLY RETIREMENT STIPEND)

Plan Description – A single employer early retirement supplement program is maintained for some employees. The plan is, in substance, a defined benefit plan established under collective bargaining agreements.

Eligible certificated employees must have been hired on or before June 30, 1999, be eligible for retirement under PERS rules, and have either ten years of full-time employment with the District at the time of retirement or be at least age 55 with ten years in the District at the time of retirement. The early retirement program provides certificated employees hired on or before June 30, 1998 with a monthly stipend of \$445 per month for seven consecutive years or to age 65, whichever occurs first. For certificated employees hired from July 1, 1998 through June 30, 1999, a monthly stipend not to exceed \$445 per month is based on the following calculation: (Years of service with the District/30 years x \$445 per month) for seven years or to age 65, whichever occurs first.

Eligible administrative and confidential employees must have been hired on or before September 1, 1999, be eligible for retirement under PERS rules, and have seven years of employment with the District at the time of retirement. The early retirement program provides eligible administrative and confidential employees a monthly stipend equal to one percent of their final annual gross salary.

In accordance with GASB Statement 73, a liability has been determined by the District without need of an outside actuary. As of June 30, 2018, the District's potential non-discounted liability for this early retirement plan is \$857,474 assuming employees eligible for the early retirement retire following 30 years of employment unless retiring sooner will result in a larger early retirement benefit. If so, the higher benefit amount is used in the calculation. The net present value of the District's June 30, 2018 potential early retirement liability is \$702,256 based on a calculation using the June 30, 2018 ten year treasury yield of 2.85 percent. There are no deferred outflows or deferred inflows associated with this plan, and no data available on the sensitivity of the liability to discount or trend rates.

Total plan expenditures for the 2017-18, 2016-17 and 2015-16 fiscal years were \$101,197, \$163,308 and \$145,186.

An Early Retirement Fund was established during the 2005-06 fiscal year. As of June 30, 2018, \$700,000 has been placed into this fund, which is included with Trust Funds for accounting purposes.

9. OTHER POST EMPLOYMENT BENEFITS – (HEALTH INSURANCE)

Plan Description - The District operates a single-employer retiree benefit plan that provides postemployment health, dental vision and life insurance benefits to eligible employees and their spouses. There are active and retired members in the plan. Benefits and eligibility for members are established through the collective bargaining agreements. The District's post-retirement plan was established in accordance with Oregon Revised Statutes (ORS) 243.303 which states, in part, that for the purposes of establishing healthcare premiums, the calculated rate must be based on the cost of all plan members, including both active employees and retirees. Because claim costs are generally higher for retiree groups than for active employees, the premium amount does not represent the full cost of coverage for retirees. The resulting additional cost, or implicit subsidy, is required to be valued under GASB Statement 75 related to Other Post-Employment Benefits (OPEB). Calculations are based on the OPEB benefits provided under the terms of the substantive plan in effect at the time of each valuation and on the pattern of sharing of costs between the employer and plan members to that point. Actuarial valuations for OPEB plans involve estimates of the value of reported amounts and assumptions about the probability of events far into the future, and actuarially determined amounts are subject to continual revision as results are compared to past expectations and new estimates are made about the future. Actuarial calculations of the OPEB plan reflect a long-term perspective.

The District has not established an irrevocable trust (or equivalent arrangement) to account for the plan. Instead, the activities of the plan are reported in the General Fund. The District does not issue a stand-alone report for this plan.

Funding Policy – The benefits from this program are paid by the retired employees on a self-pay basis and the required contribution is based on projected pay-as-you go financing requirements. There is no obligation on the part of the District to fund these benefits in advance.

Program membership consisted of the following as of the Actuarial Measurement date of June 30, 2018:

Retirees currently receiving benefits	25
Active program members	326
Total	<u>351</u>

Total Other Post Employment Benefit Liability

The District's total health insurance liability and total other post-employment benefits were measured as of June 30, 2018 and determined by an actuarial valuation as of June 30, 2018.

Actuarial Methods and Assumptions - The District engaged an actuary to perform a valuation as of June 30, 2018 using the Entry age normal, level percent of salary Actuarial Cost Method.

The total other post-employment benefit liability in the June 30, 2018 actuarial valuation was calculated based on the discount rate and actuarial assumptions below, and was then projected forward/backward to the measurement date.

Sensitivity of the Total Post-employment Benefit Liability to changes in the discount and trend rates

The following presents the Total OPEB Liability of the plan, calculated using the discount rate as of the measurement date, as well as what the Plan's Total OPEB Liability would be if it were calculated using a discount rate that is 1 percentage point lower or 1percentage point higher than the current rate. A similar sensitivity analysis is then presented for changes in the healthcare cost trend assumption.

10. LONG-TERM DEBT

BONDS PAYABLE:

General Obligation Bonds

On June 13, 2001, the District issued \$18,720,250 in voter approved general obligation bonds. Proceeds were used to renovate Sweet Home High School, add classroom space at Hawthorne Elementary School, upgrade heating systems throughout the district and complete a variety of other capital improvements at District facilities. In 2005, the District issued General Obligation Refunding Bonds to advance refund the 2001 series bonds at lower interest rates.

On February 17, 2016 and March 3, 2016, the District issued a total of \$14,375,000 in General Obligation Refunding Bonds to refund the remaining 2005 series bonds at lower interest rates. This refunding was structured to shorten the final maturity. Debt service payments due in 2028 and 2029 were eliminated and a debt service payment due in 2027 was reduced.

10. LONG-TERM DEBT (CONTINUED)

On September 12, 2017, the District issued a total of \$3,820,000 in General Obligation Bonds at a premium, realizing total proceeds of \$4,077,069. The proceeds of the bond issue will primarily be used to renovate Sweet Home Junior High School.

Pension Obligation Bonds

On April 3, 2003 and October 9, 2002, \$9,199,658 and \$8,089,414 respectively, of limited tax pension obligation bonds were issued to finance the unfunded actuarially accrued liability (UAL) with the State of Oregon Public Employees Retirement System (PERS). The issuance of the bonds was considered an advance refunding of the District's UAL. The actual savings realized over the life of the bonds is uncertain because of the various legislative changes and legal issues pending with the PERS system which could impact the District's future required contribution rate.

Debt service payments for the pension obligation bonds will continue through the 2027-28 fiscal year. Future increases of the annual debt service payment will range from 4.6 percent to 5.3 percent annually. The bonds include deferred interest obligations where interest is payable at maturity and current interest obligations where interest is due semi-annually.

Changes in bonds outstanding are as follows:

13. PROPERTY TAX LIMITATION

The voters of the State of Oregon imposed a constitutional limit on property taxes for schools and nonschool government operations. School operations include community colleges, local school districts, and education service districts. The limitation provides that property taxes for school operations are limited to \$5.00 for each \$1,000 of property market value. This limitation does not apply to taxes levied for principal and interest on general obligation bonded debt. The result of this requirement has been that school districts have become more dependent upon state funding and less dependent upon property tax revenues as their major source of operating revenue.

The State voters further reduced property taxes by replacing the previous constitutional limits on tax bases with a rate and value limit in 1997. This reduction is accomplished by rolling property values back to their 1995-96 values less 10% and limiting future tax value growth of each property to no more than 3% per year, subject to certain exceptions. Taxes levied to support bonded debt are exempted from the reductions. The State Constitution sets restrictive voter approval requirements for most tax and many fee increases and new bond issues, and requires the State to minimize the impact to school districts from the impact of the tax cuts.

14. TAX ABATEMENTS

As of June 30, 2018, the District potentially had tax abatements through various state allowed programs that impacted levied taxes and would require disclosure under GASB 77. Based on the information available from the county as of the date of issuance of these basic financial statements, the amount of abatements for the year ended June 30, 2018 is deemed immaterial.

15. FUND BALANCE CONSTRAINTS

The specific purposes for each of the categories of fund balance as of June 30, 2018 are as follows:

16. COMMITMENTS AND CONTINGENCIES

Substantially all amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time, although management expects such amounts, if any, to be immaterial.

A substantial portion of operating funding is received from the State of Oregon. State funding is determined through state wide revenue projections that are paid to individual school districts based on pupil counts and other factors in the state school fund revenue formula. Since these projections and pupil counts fluctuate they can cause either increases or decreases in revenue. Due to these future uncertainties at the state level, the future effect on operations cannot be determined.

17. RESTATEMENT OF NET POSITION

Due to implementation of GASB Statement No. 75 by the latest actuarial valuation of the District's OPEB benefits, a restatement of the prior year net position was required to record the OPEB Liability at the prior measurement date. The restatement is as follows:

Net Position - Beginning as previously reported	\$ (2,816,084)

In implementing GASB Statement No. 75, the following changes since the prior valuation were implemented; (i) the actuarial cost method was changed from Projected Unit Credit to Entry Age Normal, (ii) the interest rate for discounting future liabilities was lowered to match municipal bond rates, (iii) premium increase rates were modified to reflect anticipated experience, (iv) the percentage of future retirees covering a spouse on the plan was decreased to reflect the anticipated experience, (v) demographic assumptions were revised to match (as closely as possible) those developed in the most recent experience study for Oregon PERS, and (vi) an implicit rate subsidy is now being valued for participants in the health plans. In prior valuations, the District's participating in the health plans determined to be a community rated arrangement.

Independent Auditor's Report Required by Oregon State Regulations

We have audited the basic financial statements of the Sweet Home School District No. 55 as of and for the year ended June 30, 2018, and have issued our report thereon dated December 11, 2018. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and Government Auditing Standards.

Compliance

As part of obtaining reasonable assurance about whether the basic financial statements are free of material misstatement, we performed tests of compliance with certain provisions of laws, regulations, contracts, and grants, including the provisions of Oregon Revised Statutes as specified in Oregon Administrative Rules 162-10-000 through 162-10-320 of the Minimum Standards for Audits of Oregon Municipal Corporations, noncompliance with which could have a direct and material effect on the determination of the basic financial statements amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion.

We performed procedures to the extent we considered necessary to address the required comments and disclosures which included, but were not limited to the following:

- **Deposit of public funds with financial institutions (ORS Chapter 295)**
- **Indebtedness limitations, restrictions and repayment.**
- **Budgets legally required (ORS Chapter 294).**
- **Insurance and fidelity bonds in force or required by law.**
- **Programs funded from outside sources.**
- **Authorized investment of surplus funds (ORS Chapter 294).**
- **Public contracts and purchasing (ORS Chapters 279A, 279B, 279C).**
- **State school fund factors and calculation.**

In connection with our testing nothing came to our attention that caused us to believe Sweet Home School District No. 55 was not in substantial compliance with certain provisions of laws, regulations, contracts, and grants, including the provisions of Oregon Revised Statutes as specified in Oregon Administrative Rules 162-10-000 through 162-10-320 of the Minimum Standards for Audits of Oregon Municipal Corporations.

OAR 162-10-0230 Internal Control

In planning and performing our audit, we considered the internal controls over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the basic financial statements, but not for the purpose of expressing an opinion on the effectiveness of the internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the internal controls over financial reporting.

This report is intended solely for the information and use of the Board of Directors and management and the Oregon Secretary of State and is not intended to be and should not be used by anyone other than these parties.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON
COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the basic financial statements of the governmental activities, each major fund, and the remaining fund information of Sweet Home School District No. 55 as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the basic financial statements, and have issued our report thereon dated December 11, 2018.

Internal Control Over Financial Reporting

In planning and performing our audit of the basic financial statements, we considered the internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of internal control. Accordingly, we do not express an opinion on the effectiveness of internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the financial statements will not be prevented, or detected and corrected on a timely basis.

A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

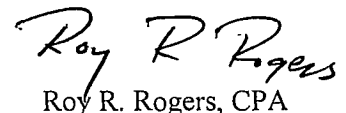

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the basic financial statements are free from material misstatement, we performed tests of compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of the basic financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM
AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

Report on Compliance for Each Major Federal Program

We have audited Sweet Home School District No. 55's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the major federal programs for the year ended June 30, 2018. The major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of compliance.

Opinion on Each Major Federal Program

In our opinion, Sweet Home School District No. 55, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2018.

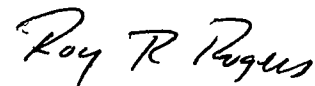

Report on Internal Control Over Compliance

Management is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

1. BASIS OF PRESENTATION

The accompanying schedule of expenditures of federal awards includes federal grant activity under programs of the federal government. The information in this schedule is presented in accordance with the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Because the schedule presents only a selected portion of the operations, it is not intended to and does not present the net position, changes in net position, or cash flows of the District.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the schedule are reported on the modified accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowed or are limited as to reimbursement. Negative amounts shown on the schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years.

The District has elected not to use the ten percent de minimis indirect cost rate as allowed under Uniform Guidance, due to the fact that they already have a negotiated indirect cost rate with Oregon Department of Education, and thus are not allowed to use the de minimis rate.
