

2022-2023 New Technology Purchases:

Below is a list of supported technology equipment for Sweet Home School District staff and student use. We will be limiting the make and model to streamline deployment and maintenance of equipment. The Technology Department will update these guidelines approximately every 6 months as needed.

We understand there may be equipment not on this list that may be needed in certain situations. Other equipment may be requested for pilot programs, special projects and/or special needs.

All technology purchases must be approved by the Technology Department prior to purchasing. Prices will be provided at the time of request due to extreme fluctuation.
