## INDEPENDENT AUDITOR'S REPORT

To the Board of Directors  
Sweet Home School District No. 55  
Linn County, Oregon

### **Opinion**

We have audited the accompanying basic financial statements of the governmental activities and each major fund of Sweet Home School District No. 55 (the District) as of and for the year ended June 30, 2023 and the related notes to the financial statements, which collectively comprise the basic financial statements as listed in the table of contents.

In our opinion, the basic financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, and each major fund of the District, as of June 30, 2023, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

### **Basis for Opinions**

We conducted our audit in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Sweet Home School District No. 55 and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### **Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of these basic financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the basic financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the basic financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Districts' ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

### **Auditors' Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the basic financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for

one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the basic financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the basic financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the basic financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the basic financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### **Required Supplementary Information**

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, and required supplementary information, as listed in the table of contents be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance on it, except for the budgetary statements listed as required supplementary information in the table of contents.

### **Supplementary Information**

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. The supplementary information, as listed in the table of contents, and the schedule of expenditures of federal awards, as required by Title 2 U.S. Code of Federal Regulations (CRF) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The supplementary information, as listed in the table of contents, is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information, as listed in the table of contents, and the schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

## Other Information

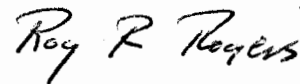

Management is responsible for the other information included in the annual report. The other information comprises the other information, as listed in the table of contents, and the listing of board members containing their term expiration dates, located before the table of contents, but does not include the basic financial statements and our auditors' report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

## Report on Other Legal and Regulatory Requirements

In accordance with *Government Auditing Standards*, we have also issued our reports dated December 2, 2023 on our consideration of the internal control over financial reporting and also on our tests of compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of the reports is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the internal control over financial reporting or on compliance. The reports are an integral part of an audit performed in accordance with *Government Auditing Standards* in considering internal control over financial reporting and compliance.

In accordance with Minimum Standards for Audits of Oregon Municipal Corporations, we have issued our report dated December 2, 2023 on our consideration of compliance with certain provisions of laws and regulations, including the provisions of Oregon Revised Statutes as specified in Oregon Administrative Rules. The purpose of that report is to describe the scope of our testing of compliance and the results of that testing and not to provide an opinion on compliance.

## MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A)

As management of the Sweet Home School District No. 55 (The District), we offer readers this narrative overview and analysis of the District's financial activities for the fiscal year ended June 30, 2023. We encourage readers to consider this information presented here in conjunction with additional information in the annual report following this MD&A.

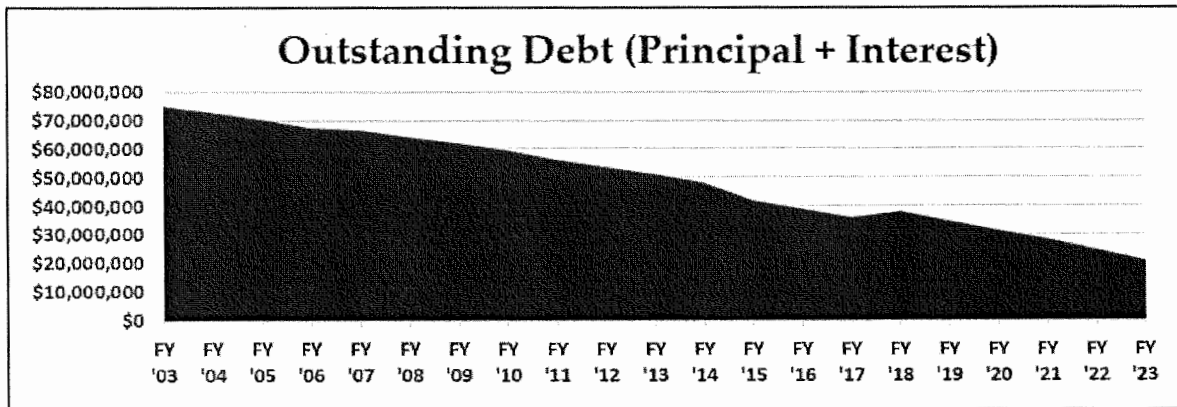

The annual report consists of a series of financial statements. The Statement of Net Position and the Statement of Activities provide information about the activities of the District as a whole and present a longer-term view of the District's finances. Fund financial statements tell how these services were financed in the short-term and also show what remains for future spending. Fund financial statements also report the District's operations in more detail than the government-wide statements.

### FINANCIAL HIGHLIGHTS

- The District's net position in the government-wide financial statements increased by \$6,563,570 from \$18,126,117 on June 30, 2022 to \$24,689,687 on June 30, 2023.

- The District's governmental funds combined ending fund balance increased by \$5,060,394 from \$14,780,933 on June 30, 2022 to \$19,841,327 on June 30, 2023.
- The General Fund ending fund balance increased by \$2,377,278 from \$4,022,776 on June 30, 2022 to \$6,400,054 on June 30, 2023. The June 30, 2023 fund balance was 21.6 percent of the General Fund's fiscal year revenues.
- The District's total outstanding debt decreased by \$2,457,136 during the 2022-2023 fiscal year, reflecting a 15.5 percent overall reduction.

## **OVERVIEW OF THE FINANCIAL STATEMENTS**

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains supplementary information in addition to the basic financial statements themselves.

**Government-wide financial statements:** The government-wide financial statements are designed to provide readers with a broad overview of the District's finances in a manner similar to a private-sector business. These statements include:

*The Statement of Net Position:* The Statement of Net Position presents information on all the District's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

*The Statement of Activities:* The Statement of Activities presents information showing how the District's net position changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event given rise to the change occurs, regardless of the timing of related cash flows.

In the government-wide financial statements, the District's activities are shown in one category as governmental activities. Most of the District's basic functions are shown here, including regular and special education, child nutrition services, transportation, administration, and facilities acquisition and construction. These activities are primarily financed through property taxes, the Oregon State School Fund and other intergovernmental revenues.

**Governmental fund financial statements:** The governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of available resources, as well as on balances of available resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the District's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

**Fund financial statements:** The fund financial statements provide more detailed information about the District's funds, focusing on its most significant or "major" funds instead of the District as a whole. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Sweet Home School District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

**Notes to the basic financial statements:** The notes to the basic financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

<b>Total net position</b>	<b>\$18,126,117</b>	<b>\$24,689,687</b>	<b>\$6,563,570</b>

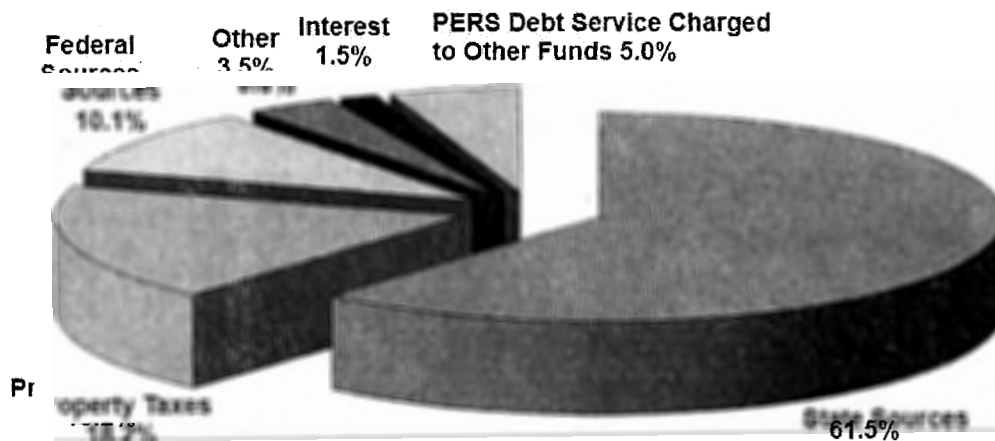

**Net Position:** As noted earlier, net position may serve over time as a useful indicator of a government's financial position. During the 2023-2023 fiscal year, the District's net position improved by \$6,563,570.

The District's current asset balance increased by \$5,314,315 largely due to revenues exceeding expenditures for the district's General Fund and Special Revenue Fund during the fiscal year. In addition, the District continued to pay down outstanding debt.

*Unrestricted net position* is the balancing amount to bring Total Net Position to equal the difference between assets/deferred outflows of resources and liabilities/deferred inflows of resources.

**Revenues:** Governmental Funds revenues increased by \$3,553,565 from \$38,942,259 during the 2021-2022 fiscal year to \$42,495,824 during the 2022-2023 fiscal year. State revenue increased by \$3,747,914 primarily due to a 152.19 ADMw increase in weighted enrollment, an increase in state funding per weighted student, and a one-time state staff retention and recruitment grant. Local revenue also increased primarily due to higher interest earnings, which largely offset a decline in federal revenue.

## 2022-2023 Revenues by Source – Governmental Activities

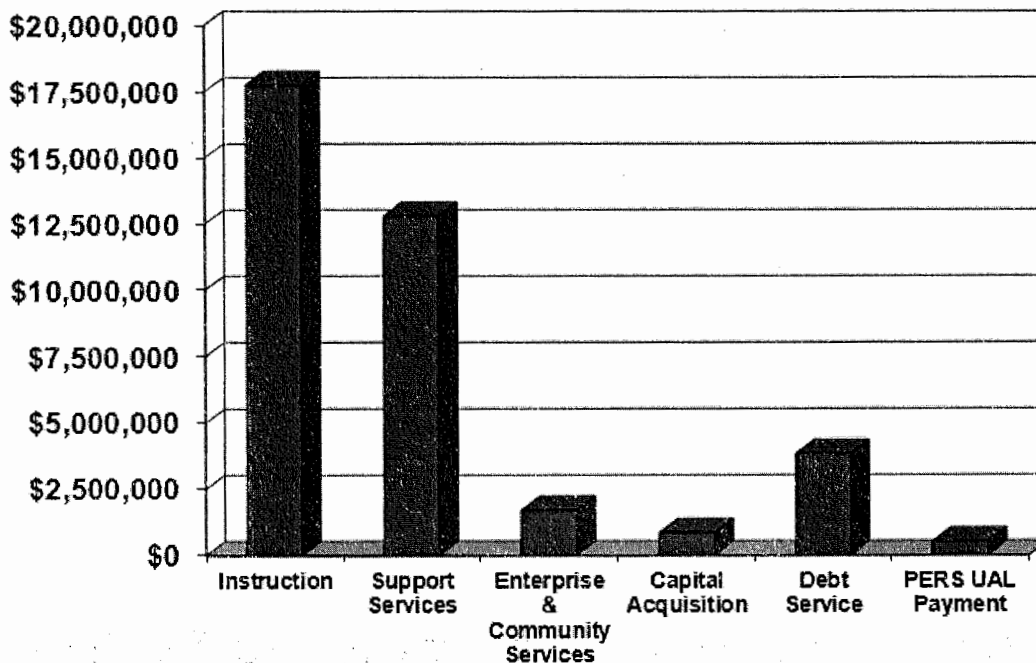

**Expenditures:** Governmental funds expenditures increased by \$1,324,567 from \$36,110,863 during the 2021-2022 fiscal year to \$37,435,430 during the 2022-2023 fiscal year. Instructional costs increased by \$1,622,932 during the 2022-2023 fiscal year primarily due to higher labor costs as the district added positions to support increased enrollment along with negotiated salary increases. Meanwhile, Support Services costs decreased by \$1,746,375 primarily because the district spent significantly less on computer devices. During the 2021-2022 school year, the District purchased computer devices for students and staff utilizing funding from the FCC Emergency Connectivity Fund and the Elementary and Secondary School Emergency Relief Fund (ESSER) programs. The District made a \$500,000 payment to PERS during the 2022-2023 fiscal year to reduce the District's unfunded pension liability. Capital expenditures and debt service payments also increased during the 2022-2023 fiscal year as compared to the 2021-2022 fiscal year.

### Condensed Statement of Expenditures

## 2022-23 Governmental Funds Expenditures

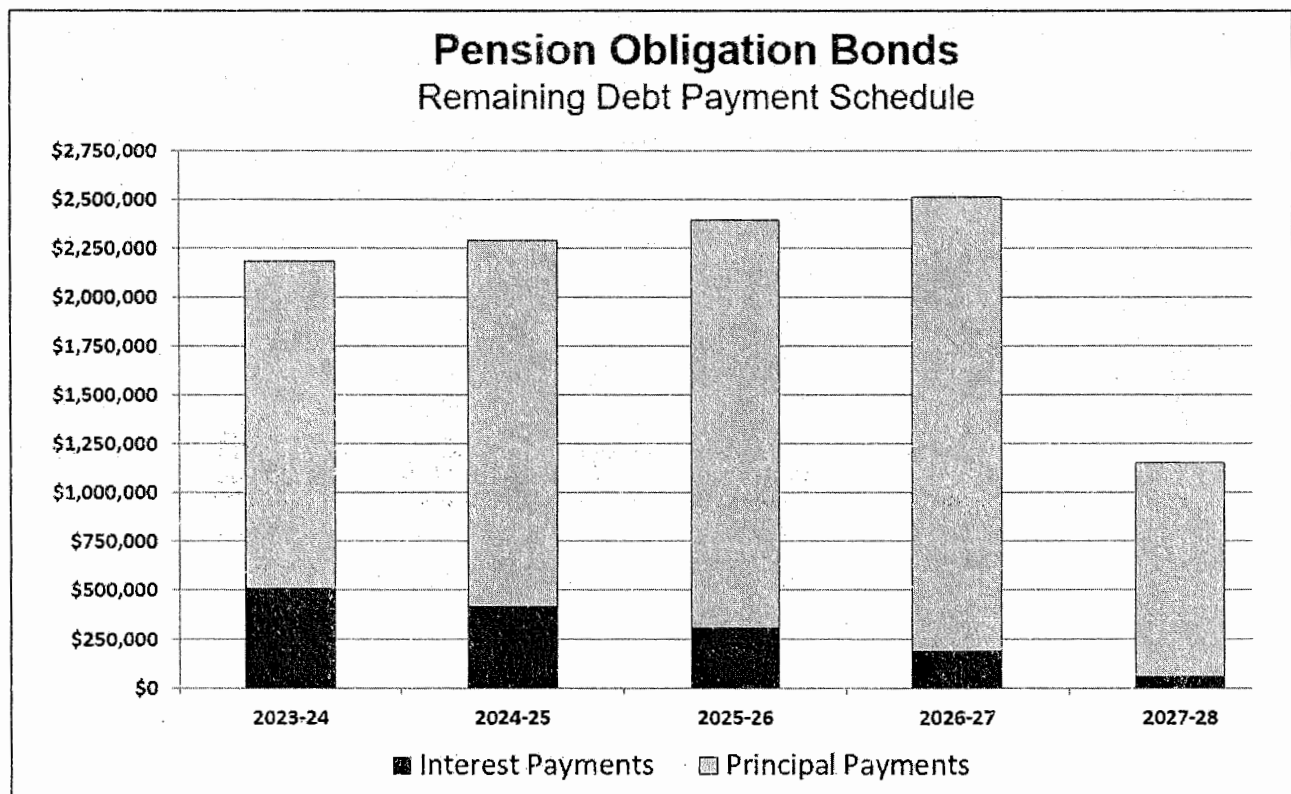

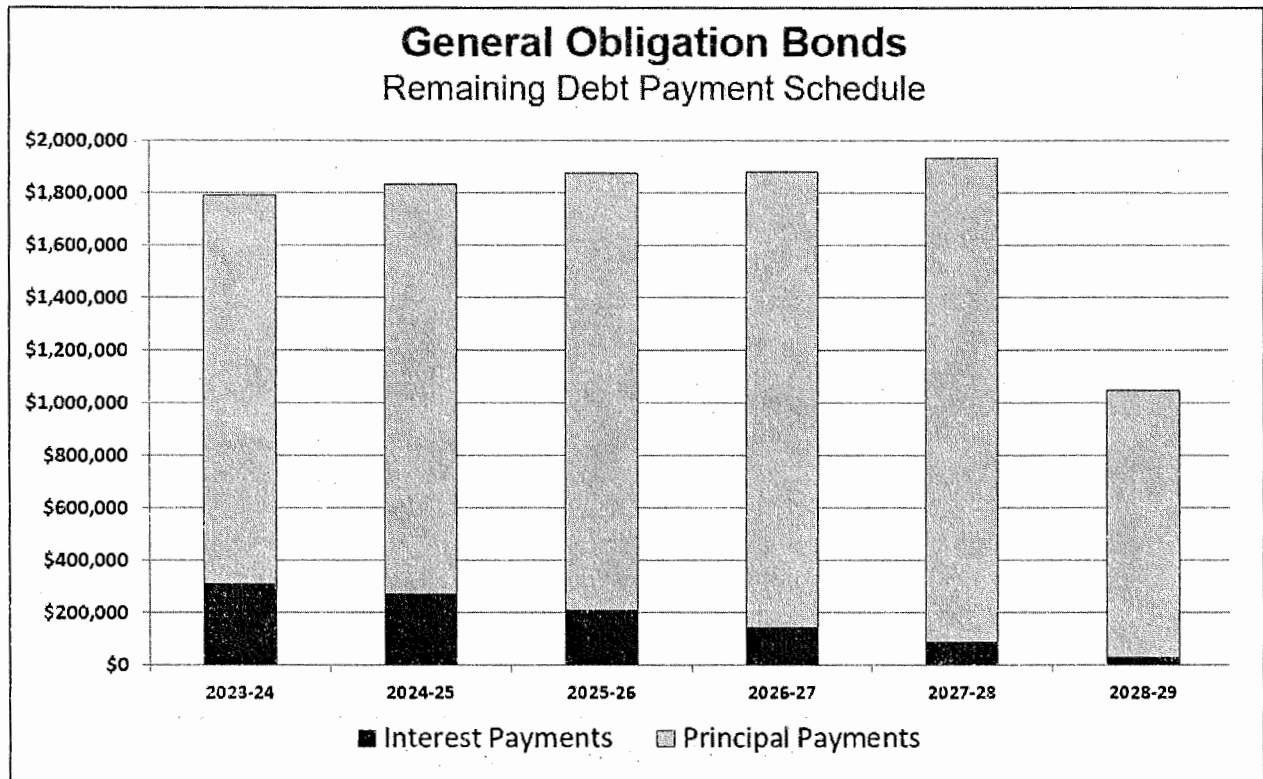

\*Support Services includes Guidance and Counseling, Health, Library, Custodial, Building Maintenance, Utilities, Speech, Administrative, Transportation, Technology, Printing, etc.

### Debt Administration

As of June 30, 2023, the District has a total of \$18,365,000 in bonds outstanding. The bond balance includes:

- \$9,310,000 in general obligation bonds. The District originally issued general obligation bonds during the 2000-2001 fiscal year. A portion of these bonds was refinanced at a lower interest rate in 2005 and the remaining portion of the bonds was refinanced at a lower interest rate in 2006. The 2005 and 2006 series bonds were then refinanced at a lower interest rate during the 2014-2015 fiscal year. The District's 2014-2015 refinancing accelerated the repayment schedule. Debt service payments due in the 2027-2028 and 2028-2029 fiscal years were eliminated and a debt service payment due in the 2026-2027 fiscal year was reduced by more than half. In May 2017, voters approved a bond for safety, security and facility improvements. In September 2017, the District issued \$3,820,000 in general obligation bonds at a premium. The net proceeds after all issuance costs totaled \$4,003,406. The final payment on the 2017 series bonds is scheduled for February 2029.
- \$9,055,000 in pension obligation bonds issued during the 2002-03 fiscal year. Maturities continue through 2028. The pension obligation bond balance reflects the District's decision to participate in the Oregon School Boards Association's Pooled PERS Bond Program. Bond proceeds were invested with the Oregon Public Employees Retirement System to reduce the District's unfunded pension liability. Savings are achieved when investment returns exceed the debt service on the bonds.

Including interest plus principal payments, the remaining general obligation bond debt service payments total \$10,372,300 and the remaining pension obligation bond debt service payments total \$10,540,587.

### **PERS Pension Side Account Balance and Unfunded Actuarial Valuation**

According to the most recent actuarial valuation report completed by Milliman, Inc. the value of the District's PERS pension side account as of December 31, 2021 was \$17,891,224. The side account balance is used to offset current and future employer PERS contribution rates. The following table reconciles the side account balance during the 2021 calendar year:

<b>Side account as of December 31, 2020</b>	<b>\$17,854,180</b>
Administrative expense	-\$1,500
Amount transferred to employer reserves during 2021	-\$3,348,862
Side account earnings during 2021	\$3,387,407
<b>Side account as of December 31, 2021</b>	<b><u>\$17,891,224</u></b>

### **Economic Factors and the 2023-2024 Budget**

Resources supporting General Fund operations primarily reflect local and state revenues, with additional income representing federal, county, and other sources. The largest portion is determined by the State School Fund formula. Most of the funding provided by the State to the District is based on the District's average daily membership (ADM) of students, using the higher amount from the current year or the prior year.

Student enrollment in November 2023 has decreased by 53 students compared to November 2022 reflecting a 2.3 percent overall decline. Residential growth in Sweet Home has slowed during the past year as interest rates have increased.

The budget for the 2023-2024 fiscal year has total appropriations of \$65,236,782 as compared to the 2022-2023 budget of \$56,284,273, a 15.9 percent year-to-year increase.

The 2023-2024 budget includes a \$2.5 million seismic retrofit grant that was awarded by Business Oregon for Oak Heights Elementary School.

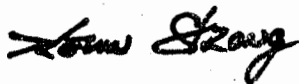

The 2023-2024 budget also includes spending down the District's federal Elementary and Secondary Schools Emergency Relief funds. These funds must be spent by September 30, 2024. As of June 30, 2023, the District had \$2,031,333 in federal Elementary and Secondary Schools Emergency Relief funds remaining.

The 2023-2024 budget was based on a K-12 statewide funding level of \$10.2 billion for the 2023-2025 biennium. The District budget includes a five-year local option levy that was renewed in November 2018. The levy funds operations for the aquatic center. Voters were asked in November 2023 to renew the local option levy for an additional five years. Election results have not yet been certified, but the most recent election results published by Linn County show the levy passing with 1,869 yes votes to 1,067 no votes.

The Oregon Office of Economic Analysis released an updated economic forecast in December 2023. The overall state revenue outlook is stable with strong corporate income tax collections offsetting a reduction in personal income tax collections.

### **Requests for Information**

Reconciliation of the Governmental Funds  
Statement of Revenues, Expenditures, and Changes in Fund Balances  
to the Statement of Activities  
For the Year Ended June 30, 2023

Total Net Changes in Fund Balances - Governmental Funds	\$	5,060,394
---	----	-----------

Long-term debt proceeds are reported as other financing sources in governmental funds. In the Statement of Net Position, however, issuing long-term debt increases liabilities. Similarly, repayment of principal is an expenditure in the governmental funds but reduces the liability in the Statement of Net Position. This is the amount of debt principal repaid (net)

Reductions in Early Retirement Liability - Stipends	\$	43,997	
Reductions in Long-Term Debt		2,457,136	2,501,133

Amortization of loss on refunding of debt		(37,276)
---	--	----------

Change in OPEB Liability - Health Insurance		72,024
---	--	--------

Change in OPEB Asset - RHIA		14,783
-----------------------------	--	--------

Interest on long-term debt in the Statement of Activities differs from the amount reported in the governmental funds because interest is recognized as an expenditure in the funds when it is due, and thus requires the use of current financial resources. In the Statement of Activities, however, interest expense is recognized as the interest accrues, regardless of when it is due.

		2,277
--	--	-------

Capital Outlays are reported in governmental funds as expenditures. However, in the Statement of Activities, the cost of those assets is capitalized and allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays exceeded depreciation.

Expenditures for capital assets (net)	\$	849,464	
Depreciation Expense		(1,712,577)	(863,113)

Compensated absences are recognized as expenditure in the governmental funds when they are paid. In the Statement of Activities these liabilities are recognized as an expenditure when earned.

		(22,823)
--	--	----------

The PERS Pension Expense represents the changes in Net Pension Asset (Liability) from year to year due to changes in total pension liability and the fair value of pension plan net position available to pay pension benefits.

		(534,360)
--	--	-----------

Property tax revenue in the Statement of Activities differs from the amount reported in the governmental funds. In the governmental funds, which are on the modified accrual basis, the District recognizes unavailable revenue for all property taxes levied but not received, however in the Statement of Activities, there is no unavailable revenue and the full property tax receivable is accrued.

		18,778
--	--	--------

Payment on Lease Subscription Liabilities decreases liabilities in the Statement of Net Position.

Payment on Subscription Liability		50,355
-----------------------------------	--	--------

Expenditure for Subscription Assets reduces the Prepaid Expenses in the Statement of Net Position. However, in the Statement of Activities, the cost of those assets is capitalized and allocated over their estimated useful lives as amortization expense.

Amortization Expense		(118,150)
----------------------	--	-----------

Prepayments and commencement payments on Subscription Liabilities are reported in the Governmental funds as expenditures.

Prepayment on Subscription Liability		419,548
--------------------------------------	--	---------

Change in Net Position of Governmental Activities	\$	6,563,570

NOTES TO THE BASIC FINANCIAL STATEMENTS

**This Page Intentionally Left Blank**

**SWEET HOME SCHOOL DISTRICT NO. 55**  
**LINN COUNTY, OREGON**

**NOTES TO BASIC FINANCIAL STATEMENTS**

---

**1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The Basic Financial Statements have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the accounting policies are described below.

**A. THE FINANCIAL REPORTING ENTITY**

The Sweet Home School District No. 55 (the District) is a municipal corporation governed by an elected Board of Directors. The District was organized under provisions of Oregon Statutes Chapter 332 for the purpose of operating elementary and secondary schools. As required by accounting principles generally accepted in the United States of America, these Basic Financial Statements present Sweet Home School District No. 55 (the primary government) and any component units. The District qualifies as a primary government since it has a separately elected governing body, is a legally separate entity, and is fiscally independent. Accounting principles generally accepted in the United States of America require that these financial statements present the District and all component units, if any. Component units, as established by the Governmental Accounting Standards Board (GASB) Statement 61 are separate organizations that are included in the District's reporting District because of the significance of their operational or financial relationships with the District. There are no component units.

**B. MEASUREMENT FOCUS, BASIS OF ACCOUNTING AND BASIS OF PRESENTATION**

Government Wide Financial Statements (GWFS)

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) display information about the reporting government as a whole. Fiduciary funds are not included in the GWFS. Fiduciary funds are reported only in the Statement of Fiduciary Net Position at the fund financial statement level.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues, expenses, gains, losses, assets and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place. Revenues, expenses, gains, losses, assets and liabilities resulting from non-exchange transactions are recognized in accordance with GASB Statement No. 33 "Accounting and Financial Reporting for Non-exchange Transactions." Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

All direct expenses are reported by function in the Statement of Activities. The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Interest on general long-term debt is considered an indirect expense and is reported separately in the Statement of Activities.

**SWEET HOME SCHOOL DISTRICT NO. 55**  
**LINN COUNTY, OREGON**

**NOTES TO BASIC FINANCIAL STATEMENTS**

---

**1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

Program revenues derive directly from the program itself or from parties outside the District's taxpayers or citizenry, as a whole. Program revenues reduce the cost of the function to be financed from the District's general revenues and include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

In the process of aggregating data for the Statement of Net Position and the Statement of Activities, some amounts reported as interfund activity and balances in the funds were eliminated or reclassified. Interfund receivables and payables were eliminated to minimize the "grossing up" effect on assets and liabilities.

**Fund Financial Statements**

The accounts are organized and operated on the basis of funds. A fund is an independent fiscal and accounting entity with a self-balancing set of accounts. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance-related legal and contractual provisions. The minimum numbers of funds are maintained consistent with legal and managerial requirements.

**Governmental Fund Types**

Governmental funds are used to account for general governmental activities. Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized as soon as they are both measurable and available. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to pay liabilities of the current period, which is 60 days, except for property taxes which are not accrued after fiscal year end. Expenditures generally are recorded when a liability is incurred, except for unmatured interest on general long-term debt which is recognized when due, interfund transactions, and certain compensated absences and OPEB expenses which are recognized as expenditures because they will be liquidated with expendable financial resources.

Revenues susceptible to accrual are interest, state, county and local shared revenue and federal and state grants. Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other grant requirements have been met.

There are the following major governmental funds:

**General Fund**

This fund accounts for all financial resources and expenditures, except those required to be accounted for in another fund. The principal revenue sources are property taxes and an apportionment from the State of Oregon School Support Fund.

**Special Revenue Fund**

This fund accounts for revenues and expenditures of grants restricted for specific educational projects. The principal revenue source is restricted federal, state and local grants.

**SWEET HOME SCHOOL DISTRICT NO. 55**  
**LINN COUNTY, OREGON**

**NOTES TO BASIC FINANCIAL STATEMENTS**

---

**1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

Debt Service Fund

This fund accounts for the resources accumulated and payments made for principal and interest on long-term general obligation debt of governmental funds, and for the one time receipt and disbursements to escrow of the proceeds of the 2002 and 2003 limited tax pension obligation bonds.

Capital Projects Fund

This fund accounts for the proceeds of bonds and capital improvements that are funded by the bonds.

Use of Estimates

The preparation of basic financial statements in conformity with accounting principles generally accepted in the United States of America requires the management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the basic financial statements and reported amounts of revenues, expenditures and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

The cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

Fair Value Inputs and Methodologies and Hierarchy

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Observable inputs are developed based on market data obtained from sources independent of the reporting entity. Unobservable inputs are developed based on the best information available about the assumptions market participants would use in pricing the asset. The classification of securities within the fair value hierarchy is based up on the activity level in the market for the security type and the inputs used to determine their fair value, as follows:

Level 1 – unadjusted price quotations in active markets/exchanges for identical assets or liabilities that each Fund has the ability to access

Level 2 – other observable inputs (including, but not limited to, quoted prices for similar assets or liabilities in markets that are active, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, loss severities, credit risks and default rates) or other market-corroborated inputs)

Level 3 – unobservable inputs based on the best information available in the circumstances, to the extent observable inputs are not available (including each Fund's own assumptions used in determining the fair value of investments)

**SWEET HOME SCHOOL DISTRICT NO. 55**  
**LINN COUNTY, OREGON**

**NOTES TO BASIC FINANCIAL STATEMENTS**

---

**1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in Level 3. The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the fair value hierarchy classification is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

**Property Taxes**

Uncollected real and personal property taxes are reflected on the Statement of Net Position and the balance sheet as receivables. Uncollected taxes are deemed by management to be substantially collectible or recoverable through liens; therefore no allowance for uncollectible taxes has been established. All property taxes receivable are due from property owners within the District.

Under state law, county governments are responsible for extending authorized property tax levies, computing tax rates, billing and collecting all property taxes, and making periodic distributions of collections to entities levying taxes. Property taxes become a lien against the property when levied on July 1 of each year and are payable in three installments due on November 15, February 15 and May 15. Property tax collections are distributed monthly except for November, when such distributions are made weekly.

**Grants**

Unreimbursed expenditures due from grantor agencies are reflected in the basic financial statements as receivables and revenues. Grant revenues are recorded at the time eligible expenditures are incurred. Cash received from grantor agencies in excess of related grant expenditures is recorded as a liability in the balance sheet and Statement of Net Position.

**Supply Inventories**

All supply inventories are valued at cost (first-in, first-out method). Inventories of governmental funds are recorded as expenditures when purchased. Management has determined that supply inventories are immaterial, and accordingly there are no inventories reported in the financial statements.

**Capital Assets**

Capital assets, which include land, buildings and improvements, and equipment, are reported in the government wide financial statements. Capital assets are assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of two years. Capital assets are recorded at historical cost or estimated historical cost. Donated capital assets are recorded at their estimated fair market value on the date donated. The cost of routine maintenance and repairs that do not add to the value of the assets or materially extend asset lives are charged to expenditures as incurred and not capitalized. Capital assets are depreciated using the straight-line method over the following useful lives:

Buildings and Improvements	20 to 50 years
Vehicles and Equipment	5 to 15 years

**SWEET HOME SCHOOL DISTRICT NO. 55**  
**LINN COUNTY, OREGON**

**NOTES TO BASIC FINANCIAL STATEMENTS**

---

**1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**Deferred Inflows and Outflows of Resources**

In addition to assets, the basic financial statements will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to future periods and so will not be recognized as an outflow of resources (expense/expenditure) until then. The District has two types of items which qualify for reporting in this category. Loss on refunding is deferred and recognized as an outflow of resources in the period that the amount becomes available. Also deferred outflows representing PERS pension, OPEB-RHIA, and OPEB-health insurance related deferrals are reported in the Statement of Net Position.

In addition to liabilities, the basic financial statements will sometimes report a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The District has two types of items which qualify for reporting in this category. The first, unavailable revenue, is in the governmental funds balance sheet for property taxes. This amount is deferred and recognized as an inflow of resources in the period that the amount becomes available. At June 30, 2023 there were deferred inflows representing PERS pension, OPEB-RHIA, and OPEB-Health Insurance related deferrals reported in the Statement of Net Position.

**Long Term Obligations**

In the government-wide financial statements long-term debt and other long-term obligations are reported as liabilities in the governmental activities. Bond premiums and discounts are deferred and amortized over the life of the bonds using the bonds outstanding method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

**Retirement Plans**

Substantially all of the District's employees are participants in the State of Oregon Public Employees Retirement System (PERS). For the purpose of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about fiduciary net position of PERS and additions to/deductions from PERS's fiduciary net position have been determined on the same basis as they are reported by PERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

**SWEET HOME SCHOOL DISTRICT NO. 55**  
**LINN COUNTY, OREGON**

**NOTES TO BASIC FINANCIAL STATEMENTS**

---

**1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

Vested Compensated Absences

It is the policy to permit employees to accumulate earned unused vacation pay benefits. There is no liability for unpaid accumulated sick leave since there is no policy to pay any amounts when employees separate from service with the District. All vacation pay is accrued in the government wide statements. A liability is accrued in the governmental funds because vacation pay is expected to be liquidated with expendable available resources.

Interfund Transactions

Transactions that constitute reimbursements to a fund for expenditures initially made from it that are properly applicable to another fund are recorded as expenditures in the reimbursing fund and as reductions of expenditures in the fund that is reimbursed. Operating interfund transactions are reported as transfers.

Net Position

Net position is comprised the various net earnings from operations, nonoperating revenues, expenses and contributions of capital. Net position is classified in the following three categories:

Net investment in capital assets – consists of all capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.

Restricted – consists of external constraints placed on net position use by creditors, grantors, contributors, or laws or regulations of other governments or constraints imposed by law through constitutional provisions or enabling legislation. There is net position restricted for debt service, grants and capital projects.

Unrestricted net position – consists of all other net position that is not included in the other categories previously mentioned.

Fund Balance

GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund-type Definitions* is followed. The objective of this statement is to enhance the usefulness of fund balance information by providing clearer fund balance classifications that can be more consistently applied and by clarifying the existing governmental fund-type definitions. This statement establishes fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed on the use of the resources reported in governmental funds. Under this standard, the fund balance classifications are nonspendable, restricted, committed, assigned, and unassigned.

- Nonspendable fund balance represents amounts that are not in a spendable form. The nonspendable fund balance represents prepaid items.
- Restricted fund balance represents amounts that are legally restricted by outside parties for a specific purpose (such as debt covenants, grant requirements, donor requirements, or other governments) or are restricted by law (constitutionally or by enabling legislation).

**1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

- Committed fund balance represents funds formally set aside by the governing body for a particular purpose. The use of committed funds would be approved by resolution.
- Assigned fund balance represents amounts that are constrained by the expressed intent to use resources for specific purposes that do not meet the criteria to be classified as restricted or committed. Intent can be stipulated by the governing body or by an official or officers to whom that authority has been given by the governing body.
- Unassigned fund balance is the residual classification of the General Fund. Only the General Fund may report a positive unassigned fund balance. Other governmental funds would report any negative residual fund balance as unassigned.

There were no nonspendable, committed, or assigned fund balances at June 30, 2023.

The governing body has approved the following order of spending regarding fund balance categories: Restricted resources are spent first when both restricted and unrestricted (committed, assigned or unassigned) resources are available for expenditures. When unrestricted resources are spent, the order of spending is committed (if applicable), assigned (if applicable) and unassigned.

**2. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY**

Budgetary Information

A budget is prepared and legally adopted for each governmental fund type on the modified accrual basis of accounting in the main program categories required by Oregon Local Budget Law. The budgets for all budgeted funds are adopted on a basis consistent with generally accepted accounting principles except the property taxes received after year-end are not considered budgetary resources in the funds, capital assets are expensed when purchased, inventory is expensed when purchased, long term debt is expensed when paid, depreciation and amortization expense is not reported, and pension costs and OPEB liabilities are expensed when paid.

The budgeting process is begun by appointing Budget Committee members in early fall. Budget recommendations are developed by management through spring, with the Budget Committee meeting and approving the budget document in late spring. Public notices of the budget hearing are generally published in May or June, and the hearing is held in June. The budget is adopted, appropriations are made and the tax levy is declared no later than June 30. Expenditure budgets are appropriated at the major function level (instruction, support services, community services, debt service, contingency, and transfers) for each fund. Expenditure appropriations may not legally be over expended, except in the case of grant receipts which could not be reasonably estimated at the time the budget was adopted.

Unexpected additional resources may be added to the budget through the use of a supplemental budget and appropriation resolution. Supplemental budgets less than 10% of the fund's original budget may be adopted by the Board of Directors at a regular meeting. A supplemental budget greater than 10% of the fund's original budget requires hearings before the public, publication in newspapers and approval by the Board. Original and supplemental budgets may be modified by the use of appropriation transfers between the levels of control (major function levels). Such transfers require approval by the Board.

**2. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY (CONTINUED)**

Budget amounts shown in the basic financial statements include the original budget amounts and appropriation transfers approved by the Board. Appropriations lapse at the end of each fiscal year. Expenditures of the various funds were within authorized appropriations.

**3. CASH AND INVESTMENTS**

The cash management policies are governed by state statutes. Statutes authorize investing in bankers acceptances, time certificates of deposit, commercial paper, repurchase agreements, obligations of the United States and its agencies and instrumentalities and Local Government Investment Pools.

A cash pool is maintained that is available for use by all funds. Each fund type's portion of this pool is reported on the combined balance sheet as Cash and Investments.

Cash and Investments at June 30, 2023 (recorded at fair value) consisted of:

Deposits with Financial Institutions:	
Demand Deposits	\$ 1,720,403
Investments	<u>16,876,729</u>
Total	<u>\$ 18,597,132</u>
Reported In:	
Governmental Funds	<u>\$ 18,597,132</u>
Total	<u>\$ 18,597,132</u>

**Deposits**

Deposits with financial institutions include bank demand deposits. Oregon Revised Statutes require deposits to be adequately covered by federal depository insurance or deposited at an approved depository as identified by the Treasury. The total bank balance per the bank statements as of June 30, 2023 was \$2,085,059, of which \$250,000 was covered by Federal Depository Insurance and the remainder was collateralized by the Oregon Public Funds Collateralization Program (PFCP).

**Investments**

Statutes authorize investing in obligations of the U.S. Treasury and U.S. agencies, bankers' acceptances, repurchase agreements, commercial paper rated A-1 by Fitch Ratings and Standard & Poor's Corporation or P-1 by Moody's Commercial Paper Record (A-2/P-2 if Oregon commercial paper) and the state treasurer's investment pool.

**3. CASH AND INVESTMENTS (CONTINUED)**

Investments in the Local Government Investment Pool (LGIP) are included in the Oregon Short-Term Fund, which is an external investment pool that is not a 2a-7-like external investment pool, and is not registered with the U.S. Securities and Exchange Commission as an investment company. Fair value of the LGIP is calculated at the same value as the number of pool shares owned. The unit of account is each share held, and the value of the position would be the fair value of the pool's share price multiplied by the number of shares held. Investments in the Short-Term Fund are governed by ORS 294.135, Oregon Investment Council, and portfolio guidelines issued by the Oregon Short-Term Fund Board, which establish diversification percentages and specify the types and maturities of investments. The portfolio guidelines permit securities lending transactions as well as investments in repurchase agreements and reverse repurchase agreements. The fund appears to be in compliance with all portfolio guidelines at June 30, 2023. The LGIP seeks to exchange shares at \$1.00 per share; an investment in the LGIP is neither insured nor guaranteed by the FDIC or any other government agency. Although the LGIP seeks to maintain the value of share investments at \$1.00 per share, it is possible to lose money by investing in the pool. We intend to measure these investments at book value since it materially approximates fair value.

The pool is comprised of a variety of investments. These investments are characterized as a level 2 fair value measurement in the Oregon Short Term Fund's audited financial report. As of June 30, 2023, the fair value of the position in the LGIP is 99.63% of the value of the pool shares as reported in the Oregon Short Term Fund audited financial statements. Amounts in the State Treasurer's Local Government Investment Pool are not required to be collateralized. The District booked a fair market value loss of \$62,676, for the difference between the pool fair market value and the book value.

There were the following investments and maturities:

Investment Type	Fair Value	Investment Maturities (in months)		
		Less than 3	3-18	18-59
State Treasurers Investment Pool	\$ 16,876,729	\$ 16,876,729	\$ -	\$ -
Total	\$ 16,876,729	\$ 16,876,729	\$ -	\$ -

**Interest Rate Risk - Investments**

Oregon Revised Statutes require investments to not exceed a maturity of 18 months, except when the local government has adopted a written investment policy that was submitted to and reviewed by the OSTFB.

**Credit Risk – Deposits**

In the case of deposits, this is the risk that in the event of a bank failure, deposits may not be returned. There is no deposit policy for custodial credit risk.

**Credit Risk – Investments**

Oregon Revised Statutes do not limit investments as to credit rating for securities purchased from US Government Agencies or USGSE. The State Investment Pool is not rated.

**Concentration of Credit Risk**

At June 30, 2023, 100% of total investments were in the State Treasurer's Investment Pool. State statutes do not limit the percentage of investments in this instrument.

**4. GRANTS RECEIVABLE**

Special revenue fund grants receivable includes claims for reimbursement of costs under various federal grant programs. There is no allowance for doubtful accounts as all amounts are considered collectable by management.

**5. CAPITAL ASSETS**

The changes in capital assets for the fiscal year ended June 30, 2023, were as follows:

	Capital Assets 7/1/2022	Additions	Deletions	Capital Assets 6/30/2023
Non Depreciable:				
Land & Land Improvements	\$ 463,022	\$ -	\$ -	\$ 463,022

Capital Assets, Net	<u>\$ 34,814,983</u>			<u>\$ 33,951,870</u>

During the year ended June 30, 2023, the District disposed of assets with a total cost of \$1,043,423 and associated accumulated depreciation of \$1,043,423 for no gain or loss.

Depreciation was allocated to the functions as follows:

Instruction	\$ 934,784
Support	689,592
Community Services	<u>88,201</u>
Total Depreciation Expense	<u>\$ 1,712,577</u>

**6. DEFINED BENEFIT PENSION PLAN**

Plan Description – The Oregon Public Employees Retirement System (PERS) consists of a single cost-sharing multiple-employer defined benefit plan. All benefits of the system are established by the legislature pursuant to Oregon Revised Statute (ORS) Chapters 238 and 238A. Oregon PERS produces an independently audited Annual Comprehensive Financial Report which can be found at:

<https://www.oregon.gov/pers/Documents/Financials/CAFR/2022-Annual-Comprehensive-Financial-Report.pdf>

If the link is expired please contact Oregon PERS for this information.

- a. **PERS Pension (Chapter 238).** The ORS Chapter 238 Defined Benefit Plan is closed to new members hired on or after August 29, 2003.
  - i. **Pension Benefits.** The PERS retirement allowance is payable monthly for life. It may be selected from 13 retirement benefit options. These options include survivorship benefits and lump-sum refunds. The basic benefit is based on years of service and final average salary. A percentage (2.0 percent for police and fire employees, and 1.67 percent for general service employees) is multiplied by the number of years of service and the final average salary. Benefits may also be calculated under either a formula plus annuity (for members who were contributing before August 21, 1981) or a money match computation if a greater benefits results.

A member is considered vested and will be eligible at minimum retirement age for a service retirement allowance if he or she has had a contribution in each of five calendar years or has reached at least 50 years of age before ceasing employment with a participating employer (age 45 for police and fire members). General service employees may retire after reaching age 55. Police and fire members are eligible after reaching age 50. Tier 1 general service employee benefits are reduced if retirement occurs prior to age 58 with fewer than 30 years of service. Police and fire member benefits are reduced if retirement occurs prior to age 55 with fewer than 25 years of service. Tier 2 members are eligible for full benefits at age 60. The ORS Chapter 238 Defined Benefit Pension Plan is closed to new members hired on or after August 29, 2003.
  - ii. **Death Benefits.** Upon the death of a non-retired member, the beneficiary receives a lump-sum refund of the member's account balance (accumulated contributions and interest). In addition, the beneficiary will receive a lump-sum payment from employer funds equal to the account balance, provided one or more of the following contributions are met:
    - member was employed by PERS employer at the time of death,
    - member died within 120 days after termination of PERS covered employment,
    - member died as a result of injury sustained while employed in a PERS-covered job, or
    - member was on an official leave of absence from a PERS-covered job at the time of death.
  - iii. **Disability Benefits.** A member with 10 or more years of creditable service who becomes disabled from other than duty-connected causes may receive a non-duty disability benefit. A disability resulting from a job-incurred injury or illness qualifies a member (including PERS judge members) for disability benefits regardless of the length of PERS-covered service. Upon qualifying for either a non-duty or duty disability, service time is computed to age 58 (55 for police and fire members) when determining the monthly benefit.

**NOTES TO BASIC FINANCIAL STATEMENTS**

**6. DEFINED BENEFIT PENSION PLAN (CONTINUED)**

- iv. **Benefit Changes After Retirement.** Members may choose to continue participation in their variable account after retiring and may experience annual benefit fluctuations due to changes in the fair value of the underlying global equity investments of that account. Under ORS 238.360 monthly benefits are adjusted annually through cost-of-living changes (COLA). The COLA is capped at 2.0 percent.
- b. **OPSRP Pension Program (OPSRP DB).** The ORS Chapter 238A Defined Benefit Pension Program provides benefits to members hired on or after August 29, 2003.
  - i. **Pension Benefits.** This portion of OPSRP provides a life pension funded by employer contributions. Benefits are calculated with the following formula for members who attain normal retirement age:  
*Police and fire:* 1.8 percent is multiplied by the number of years of service and the final average salary. Normal retirement age for police and fire members is age 60 or age 53 with 25 years of retirement credit. To be classified as a police and fire member, the individual must have been employed continuously as a police and fire member for at least five years immediately preceding retirement.  
*General service:* 1.5 percent is multiplied by the number of years of service and the final average salary. Normal retirement age for general service members is age 65, or age 58 with 30 years of retirement credit.  
A member of the pension program becomes vested on the earliest of the following dates: the date the member completes 600 hours of service in each of five calendar years, the date the member reaches normal retirement age, and, if the pension program is terminated, the date on which termination becomes effective.
  - ii. **Death Benefits.** Upon the death of a non-retired member, the spouse or other person who is constitutionally required to be treated in the same manner as the spouse, receives for life 50 percent of the pension that would otherwise have been paid to the deceased member. The surviving spouse may elect to delay payment of the death benefit, but payment must commence no later than December 31 of the calendar year in which the member would have reached 70½ years.
  - iii. **Disability Benefits.** A member who has accrued 10 or more years of retirement credits before the member becomes disabled or a member who becomes disabled due to job-related injury shall receive a disability benefit of 45 percent of the member's salary determined as of the last full month of employment before the disability occurred.

**Contributions** – PERS funding policy provides for monthly employer contributions at actuarially determined rates. These contributions, expressed as a percentage of covered payroll, are intended to accumulate sufficient assets to pay benefits when due. The funding policy applies to the PERS Defined Benefit Plan and the Other Postemployment Benefit Plans. Employer contribution rates during the period were based on the December 31, 2019 actuarial valuation, which became effective July 1, 2021. The state of Oregon and certain schools, community colleges, and political subdivision have made unfunded actuarial liability payments and their rates have been reduced. Employer contributions for the year ended June 30, 2023 were \$3,596,508, excluding amounts to fund employer specific liabilities. In addition no employee contributions were paid or picked up by the District in 2022-2023.

**6. DEFINED BENEFIT PENSION PLAN (CONTINUED)**

**Pension Asset or Liability** – At June 30, 2023, the District reported a net pension liability of \$12,004,382 for its proportionate share of the net pension liability. The pension liability was measured as of June 30, 2022, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation dated December 31, 2020. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. As of the measurement dates of June 30, 2022 and 2021, the District's proportion was .078 percent and .074 percent, respectively. Pension expense for the year ended June 30, 2023 was \$534,360.

The rates in effect for the year ended June 30, 2023 were:

- (1) Tier 1/Tier 2 – 7.00%
- (2) OPSRP general services – 3.89%

**Actuarial Valuations** – The employer contribution rates effective July 1, 2021 through June 30, 2023, were set using the entry age normal actuarial cost method. For the Tier One/Tier Two component of the PERS Defined Benefit Plan, this method produced an employer contribution rate consisting of (1) an amount for normal cost (estimated amount necessary to finance benefits earned by employees during the current service year), (2) an amount for the amortization unfunded actuarial accrued liabilities, which are being amortized over a fixed period with new unfunded actuarial liabilities being amortized over 20 years.

For the OPSRP Pension Program component of the PERS Defined Benefit Plan, this method produced an employer rate consisting of (a) an amount for normal cost (the estimated amount necessary to finance benefits earned by the employees during the current service year), (b) an actuarially determined amount for funding a disability benefit component, and (c) an amount for the amortization of unfunded actuarial accrued liabilities, which are being amortized over a fixed period with new unfunded actuarial accrued liabilities being amortized over 16 years.

Disabled retirees: Pub-2010 Disabled Retiree, sex distinct, generational with Unisex, Social Security Data Scale, with job category adjustments and set-backs as described in the valuation.

Actuarial valuations of an ongoing plan involve estimates of value of reported amounts and assumptions about the probability of events far into the future. Actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. Experience studies are performed as of December 31 of even numbered years. The method and assumptions shown are based on the 2020 Experience Study which is reviewed for the four-year period ending December 31, 2020.

**Long-Term Expected Rate of Return:**

To develop an analytical basis for the selection of the long-term expected rate of return assumption, in June 2021 the PERS Board reviewed long-term assumptions developed by both Milliman's capital market assumptions team and the Oregon Investment Council's (OIC) investment advisors. The table below shows Milliman's assumptions for each of the asset classes in which the plan was invested at that time based on the OIC long-term target asset allocation. The OIC's description of each asset class was used to map the target allocation to the asset classes shown below. Each asset class assumption is based on a consistent set of underlying assumptions, and includes adjustment for the inflation assumption. These assumptions are not based on historical returns, but instead are based on a forward-looking capital market economic model.

**6. DEFINED BENEFIT PENSION PLAN (CONTINUED)**

**Discount Rate** – The discount rate used to measure the total pension liability as of the measurement dates of June 30, 2022 and 2021 was 6.90 percent, for both years, for the Defined Benefit Pension Plan. The projection of cash flows used to determine the discount rate assumed that contributions from the plan members and those of the contributing employers are made at the contractually required rates, as actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments for the Defined Benefit Pension Plan was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the District's proportionate share of the net pension liability to changes in the discount rate – the following presents the District's proportionate share of the net pension liability calculated using the discount rate of 6.90 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percent lower (5.90 percent) or one percent higher (7.90 percent) than the current rate.

	1% Decrease (5.90%)	Discount Rate (6.90%)	1% Increase (7.90%)
District's proportionate share of the net pension liability (asset)	\$ 21,288,733	\$ 12,004,382	\$ 4,233,809

**Changes Subsequent to the Measurement Date**

As described above, GASB 67 and GASB 68 require the Total Pension Liability to be determined based on the benefit terms in effect at the Measurement Date. Any changes to benefit terms that occurs after that date are reflected in amounts reported for the subsequent Measurement Date. However, Paragraph 80f of GASB 68 requires employers to briefly describe any changes between the Measurement Date and the employer's reporting date that are expected to have a significant effect on the employer's share of the collective Net Pension Liability, along with an estimate of the resulting change, if available.

There are no changes subsequent to the June 30, 2022 Measurement Date that meet this requirement and thus would require a brief description under the GASB standard.

**OPSRP Individual Account Program (OPSRP IAP)**

*Plan Description:*

Employees of the District are provided with pensions through OPERS. All the benefits of OPERS are established by the Oregon legislature pursuant to Oregon Revised Statute (ORS) Chapters 238 and 238A. Chapter 238 Defined Benefit Pension Plan is closed to new members hired on or after August 29, 2003. Chapter 238A created the Oregon Public Service Retirement Plan (OPSRP), which consists of the Defined Benefit Pension Program and the Individual Account Program (IAP). Membership includes public employees hired on or after August 29, 2003. PERS members retain their existing defined benefit plan accounts, but member contributions are deposited into the member's IAP account. OPSRP is part of OPERS, and is administered by the OPERS Board.

**6. DEFINED BENEFIT PENSION PLAN (CONTINUED)**

*Pension Benefits:*

Participants in OPERS defined benefit pension plans also participate in their defined contribution plan. An IAP member becomes vested on the date the employee account is established or on the date the rollover account was established. If the employer makes optional employer contributions for a member, the member becomes vested on the earliest of the following dates: the date the member completes 600 hours of service in each of five calendar years, the date the member reaches normal retirement age, the date the IAP is terminated, the date the active member becomes disabled, or the date the active member dies. Upon retirement, a member of the OPSRP IAP may receive the amounts in his or her employee account, rollover account, and vested employer account as a lump-sum payment or in equal installments over a 5-, 10-, 15-, 20-year period or an anticipated life span option. Each distribution option has a \$200 minimum distribution limit.

*Death Benefits:*

Upon the death of a non-retired member, the beneficiary receives in a lump sum the member's account balance, rollover account balance, and vested employer optional contribution account balance. If a retired member dies before the installment payments are completed, the beneficiary may receive the remaining installment payments or choose a lump-sum payment.

*Contributions:*

Employees of the District pay six (6) percent of their covered payroll. Effective July 1, 2020, currently employed Tier 1/Tier 2 and OPSRP members earning \$2,500 or more per month (increased to \$3,333 per month in 2022) will have a portion of their 6 percent monthly IAP contributions redirected to an Employee Pension Stability Account. The Employee Pension Stability Account will be used to pay part of the member's future benefit. Of the 6 percent monthly IAP contribution, Tier 1/Tier 2 will have 2.5 percent redirected to the Employee Pension Stability Account and OPSRP will have 0.75 percent redirected to the Employee Pension Stability Account, with the remaining going to the member's existing IAP account. Members may voluntarily choose to make additional after-tax contributions into their IAP account to make a full 6 percent contribution to the IAP. The District did not make any optional contributions to member IAP accounts for the year ended June 30, 2023.

**7. OTHER POST-EMPLOYMENT BENEFIT PLAN – (RHIA)**

**Plan Description:**

As a member of Oregon Public Employees Retirement System (OPERS) the District contributes to the Retirement Health Insurance Account (RHIA) for each of its eligible employees. RHIA is a cost-sharing multiple-employer defined benefit other postemployment benefit plan administered by OPERS. RHIA pays a monthly contribution toward the cost of Medicare companion health insurance premiums of eligible retirees. Oregon Revised Statute (ORS) 238.420 established this trust fund. Authority to establish and amend the benefit provisions of RHIA reside with the Oregon Legislature. The plan is closed to new entrants after January 1, 2004. OPERS issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to Oregon Public Employees Retirement System, PO Box 23700, Tigard, OR 97281-3700.

**Funding Policy:**

Because RHIA was created by enabling legislation (ORS 238.420), contribution requirements of the plan members and the participating employers were established and may be amended only by the Oregon Legislature. ORS require that an amount equal to \$60 dollars or the total monthly cost of Medicare companion health insurance premiums coverage, whichever is less, shall be paid from the Retirement Health Insurance Account established by the employer, and any monthly cost in excess of \$60 dollars shall be paid by the eligible retired member in the manner provided in ORS 238.410. To be eligible to receive this monthly payment toward the premium cost the member must: (1) have eight years or more of qualifying service in OPERS at the time of retirement or receive a disability allowance as if the member had eight years or more of creditable service in OPERS, (2) receive both Medicare Parts A and B coverage, and (3) enroll in an OPERS-sponsored health plan. A surviving spouse or dependent of a deceased OPERS retiree who was eligible to receive the subsidy is eligible to receive the subsidy if he or she (1) is receiving a retirement benefit or allowance from OPERS or (2) was insured at the time the member died and the member retired before May 1, 1991.

Participating employers are contractually required to contribute to RHIA at a rate assessed each year by OPERS, and the District currently contributes 0.05% of annual covered OPERF payroll and 0.00% of OPSRP payroll under a contractual requirement in effect until June 30, 2023. Consistent with GASB Statement 75, the OPERS Board of Trustees sets the employer contribution rates as a measure of the proportionate relationship of the employer to all employers consistent with the manner in which contributions to the OPEB plan are determined. The basis for the employer's portion is determined by comparing the employer's actual, legally required contributions made during the fiscal year to the plan with the total actual contributions made in the fiscal year of all employers. The District's contributions to RHIA are included with PERS and equaled the required contributions for the year.

At June 30, 2023, the District reported a net OPEB liability of (\$329,283) for its proportionate share of the net OPEB liability. The OPEB liability was measured as of June 30, 2022, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of December 31, 2020. Consistent with GASB Statement No. 75, paragraph 59(a), the District's proportion of the net OPEB liability is determined by comparing the employer's actual, legally required contributions made during the fiscal year to the Plan with the total actual contributions made in the fiscal year of all employers. As of the measurement dates of June 30, 2022 and 2021, the District's proportion was .093 percent and .103 percent, respectively. OPEB income for the year ended June 30, 2023 was \$14,783.

**Actuarial Methods and Assumptions:**

Valuation Date	December 31, 2020
Experience Study Report	2020, Published July 20, 2021
Actuarial cost method	Entry Age Normal
Inflation rate	2.40 percent
Investment rate of return	6.90 percent

Disabled retirees: Pub-2010 Disabled Retiree, sex distinct, generational with Unisex, Social Security Data Scale, with job category adjustments and set-backs as described in the valuation.

Actuarial valuations of an ongoing plan involve estimates of value of reported amounts and assumptions about the probability of events far into the future. Actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. Experience studies are performed as of December 31 of even numbered years. The method and assumptions shown are based on the 2020 Experience Study which is reviewed for the four-year period ending December 31, 2020.

**Discount Rate:**

The discount rate used to measure the total OPEB liability as of the measurement date of June 30, 2022 and June 30, 2021 was 6.90 percent for both years. The projection of cash flows used to determine the discount rate assumed that contributions from contributing employers are made at the contractually required rates, as actuarially determined. Based on those assumptions, the RHIA p28-44lan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on OPEB plan investments for the RHIA plan was applied to all periods of projected benefit payments to determine the total OPEB liability.

**Long-Term Expected Rate of Return:**

To develop an analytical basis for the selection of the long-term expected rate of return assumption, in June 2021 the PERS Board reviewed long-term assumptions developed by both Milliman's capital market assumptions team and the Oregon Investment Council's (OIC) investment advisors. The table below shows Milliman's assumptions for each of the asset classes in which the plan was invested at that time based on the OIC long-term target asset allocation. The OIC's description of each asset class was used to map the target allocation to the asset classes shown below. Each asset class assumption is based on a consistent set of underlying assumptions, and includes adjustment for the inflation assumption. These assumptions are not based on historical returns, but instead are based on a forward-looking capital market economic model.

**8. OTHER POST EMPLOYMENT BENEFITS – (EARLY RETIREMENT STIPEND)**

Plan Description – A single employer early retirement supplement program is maintained for some employees. The plan is, in substance, a defined benefit plan established under collective bargaining agreements.

Eligible certificated employees must have been hired on or before June 30, 1999, be eligible for retirement under PERS rules, and have either ten years of full-time employment with the District at the time of retirement or be at least age 55 with ten years in the District at the time of retirement. The early retirement program provides certificated employees hired on or before June 30, 1998 with a monthly stipend of \$445 per month for seven consecutive years or to age 65, whichever occurs first. For certificated employees hired from July 1, 1998 through June 30, 1999, a monthly stipend not to exceed \$445 per month is based on the following calculation: (Years of service with the District/30 years x \$445 per month) for seven years or to age 65, whichever occurs first.

Eligible administrative and confidential employees must have been hired on or before September 1, 1999, be eligible for retirement under PERS rules, and have seven years of employment with the District at the time of retirement. The early retirement program provides eligible administrative and confidential employees a monthly stipend equal to one percent of their final annual gross salary.

In accordance with GASB Statement 73, a liability has been determined by the District without need of an outside actuary due to the plan being closed to new entrants and the District reporting the maximum potential liability for all remaining participants. As of June 30, 2023, the District's maximum potential non-discounted liability for this early retirement plan is \$546,579 assuming employees eligible for the early retirement retire following 30 years of employment unless retiring sooner will result in a larger early retirement benefit. If so, the higher benefit amount is used in the calculation. The net present value of the District's June 30, 2023 potential early retirement liability is \$453,727 based on a calculation using the June 30, 2021 ten year treasury yield of 1.45 percent. There are no deferred outflows or deferred inflows associated with this plan, and no data available on the sensitivity of the liability to discount or trend rates.

Total plan expenditures for the 2022-23, 2021-22, and 2020-21 fiscal years were \$15,862, \$37,349, and \$41,347.

**9. OTHER POST EMPLOYMENT BENEFITS – (HEALTH INSURANCE)**

Plan Description - The District operates a single-employer retiree benefit plan that provides postemployment health, dental vision and life insurance benefits to eligible employees and their spouses. There are active and retired members in the plan. Benefits and eligibility for members are established through the collective bargaining agreements. The District's post-retirement plan was established in accordance with Oregon Revised Statutes (ORS) 243.303 which states, in part, that for the purposes of establishing healthcare premiums, the calculated rate must be based on the cost of all plan members, including both active employees and retirees. Because claim costs are generally higher for retiree groups than for active employees, the premium amount does not represent the full cost of coverage for retirees. The resulting additional cost, or implicit subsidy, is required to be valued under GASB Statement 75 related to Other Post-Employment Benefits (OPEB). Calculations are based on the OPEB benefits provided under the terms of the substantive plan in effect at the time of each valuation and on the pattern of sharing of costs between the employer and plan members to that point. Actuarial valuations for OPEB plans involve estimates of the value of reported amounts and assumptions about the probability of events far into the future, and actuarially determined amounts are subject to continual revision as results are compared to past expectations and new estimates are made about the future. Actuarial calculations of the OPEB plan reflect a long-term perspective.

The District has not established an irrevocable trust (or equivalent arrangement) to account for the plan. Instead, the activities of the plan are reported in the General Fund. The District does not issue a stand-alone report for this plan.

Funding Policy – The benefits from this program are paid by the retired employees on a self-pay basis and the required contribution is based on projected pay-as-you go financing requirements. There is no obligation on the part of the District to fund these benefits in advance.

Program membership consisted of the following as of the Actuarial Measurement date of June 30, 2023:

Active program members	267
Retirees currently receiving benefits	<u>12</u>
Total	<u><u>279</u></u>

**Total Other Post Employment Benefit Liability**

The District's total health insurance liability and total other post-employment benefits were measured as of June 30, 2023 and determined by an actuarial valuation as of June 30, 2022.

Actuarial Methods and Assumptions - The District engaged an actuary to perform a valuation as of June 30, 2023 using the Entry age normal, level percent of salary Actuarial Cost Method.

The total other post-employment benefit liability in the June 30, 2022 actuarial valuation was calculated based on the discount rate and actuarial assumptions below, and was then projected forward/backward to the measurement date.

**10. LONG-TERM OBLIGATIONS**

**BONDS PAYABLE:**

**General Obligation Bonds**

On June 13, 2001, the District issued \$8,800,000 in voter approved general obligation bonds. Proceeds were used to renovate Sweet Home High School, add classroom space at Hawthorne Elementary School, upgrade heating systems throughout the district and complete a variety of other capital improvements at District facilities. In 2005, the District issued General Obligation Refunding Bonds to advance refund the 2001 series bonds at lower interest rates.

On September 12, 2017, the District issued a total of \$3,820,000 in General Obligation bonds at a premium, realizing total proceeds of \$4,077,069. The proceeds of the bond issue were used primarily to renovate Sweet Home Junior High School.

**Pension Obligation Bonds**

On April 3, 2003 and October 9, 2002, \$9,199,658 and \$8,089,414 respectively, of limited tax pension obligation bonds were issued to finance the unfunded actuarially accrued liability (UAL) with the State of Oregon Public Employees Retirement System (PERS). The issuance of the bonds was considered an advance refunding of the District's UAL. The actual savings realized over the life of the bonds is uncertain because of the various legislative changes and legal issues pending with the PERS system which could impact the District's future required contribution rate.

**SWEET HOME SCHOOL DISTRICT NO. 55**

**10. LONG-TERM OBLIGATIONS (CONTINUED)**

Debt service payments for the pension obligation bonds will continue through the 2027-28 fiscal year. Future increases of the annual debt service payment will range from 4.4 percent to 4.9 percent annually. The bonds include deferred interest obligations where interest is payable at maturity and current interest obligations where interest is due semi-annually.

For the year ended June 30, 2023, there were no additions to Long Term Obligations.

The District has no significant default or termination clauses on any bonds payable and are not subject to any acceleration clauses under GASB 88.

Changes in bonds outstanding are as follows:

**11. RISK MANAGEMENT**

There is exposure to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. Commercial insurance is purchased to minimize exposure to these risks. Settled claims have not exceeded this commercial coverage for the last three fiscal years.

**12. INTERFUND TRANSFERS**

Operating transfers between funds were made to fund various programs and activities as follows:

	Transfers Out	Transfers In
General Fund	\$ 2,007,500	\$ -
Special Revenue Fund	-	2,007,500
Total	<u>\$ 2,007,500</u>	<u>\$ 2,007,500</u>

The internal transfers are budgeted and recorded to show legal and operational commitments between funds such as cost sharing.

**13. PROPERTY TAX LIMITATION**

The voters of the State of Oregon imposed a constitutional limit on property taxes for schools and nonschool government operations. School operations include community colleges, local school districts, and education service districts. The limitation provides that property taxes for school operations are limited to \$5.00 for each \$1,000 of property market value. This limitation does not apply to taxes levied for principal and interest on general obligation bonded debt. The result of this requirement has been that school districts have become more dependent upon state funding and less dependent upon property tax revenues as their major source of operating revenue.

**SWEET HOME SCHOOL DISTRICT NO. 55**  
**LINN COUNTY, OREGON**

**NOTES TO BASIC FINANCIAL STATEMENTS**

---

**13. PROPERTY TAX LIMITATION (CONTINUED)**

The State voters further reduced property taxes by replacing the previous constitutional limits on tax bases with a rate and value limit in 1997. This reduction is accomplished by rolling property values back to their 1995-96 values less 10% and limiting future tax value growth of each property to no more than 3% per year, subject to certain exceptions. Taxes levied to support bonded debt are exempted from the reductions. The State Constitution sets restrictive voter approval requirements for most tax and many fee increases and new bond issues, and requires the State to minimize the impact to school districts from the impact of the tax cuts.

**14. TAX ABATEMENTS**

As of June 30, 2023, the District potentially had tax abatements through various state allowed programs that impacted levied taxes and would require disclosure under GASB 77. Based on the information available from the county as of the date of issuance of these basic financial statements, the amount of abatements for the year ended June 30, 2023 were deemed immaterial by management.

**15. SUBSCRIPTIONS PAYABLE (GASB 96)**

The District is party to multiple subscription based information technology arrangements (SBITAs). The District recognizes a subscription liability and an intangible right-to-use subscription asset (subscription asset) in the government-wide financial statements. The government funds report SBITA current expenditures in the fund level statement of revenues, expenditures and changes in fund balance. The District recognizes subscription liabilities with an initial term greater than twelve months. For SBITAs with a maximum possible term of 12 months or less at commencement, the District recognizes expenses/expenditures based on the provisions of the arrangement.

At the commencement of a SBITA, the District initially measures the subscription asset as the sum of (1) the initial subscription liability amount, (2) payments made to the SBITA vendor before commencement of the subscription term, and (3) capitalizable implementation costs, less any incentives received from the SBITA vendor at or before the commencement of the subscription term. Subsequently, the subscription asset is amortized on a straight-line basis over the shorter of the useful life of the information technology asset or subscription term.

The subscription liability is initially measured as the present value of expected subscription payments to be made during the subscription term. Expected subscription payments include fixed payments, variable payments that depend on an index or a rate, variable payments that are fixed in substance, payments for penalties terminating the SBITA in certain conditions, subscription contract incentives from the SBITA vendor, and any other payments to the SBITA vendor associated with the SBITA contract that are reasonable certain of being required based on an assessment of all relevant factors. Future subscription payments are discounted using the interest rate the SBITA vendor charges the District, which may be implicit, or the District's incremental borrowing rate if the interest rate is not readily determinable.

Key estimates and judgements related to SBITAs include how the District determines the discount rate it uses to discount the expected subscription payments to present value, the subscription term, and subscription payments.

The subscription term includes the non-cancellable period during which the District has a non-cancellable right to use the underlying information technology assets. The subscription term also includes periods covered by an option to extend if reasonably certain that the District or vendor will exercise that option.

The District monitors changes in circumstances that would require a remeasurement of a SBITA and will remeasure the subscription asset and subscription liability if certain changes occur that are expected to significantly affect the amount.

**NOTES TO BASIC FINANCIAL STATEMENTS**

**15. SUBSCRIPTIONS PAYABLE (GASB 96) (CONTINUED)**

Subscription assets are reported with other capital assets and subscription liabilities are reported with long-term obligations on the statement of net position.

The District capitalizes qualifying initial implementation costs as part of the subscription asset. Preliminary project stage activities are expensed as incurred.

Operation and additional implementation stage activities are expensed as incurred unless they meet specific capitalization criteria.

As of June 30, 2023, the District had no SBITA liabilities. All subscription assets had previously been paid-in-full and there are no remaining fixed payments.

**17. COMMITMENTS AND CONTINGENCIES**

Substantially all amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time, although management expects such amounts, if any, to be immaterial.

A substantial portion of operating funding is received from the State of Oregon. State funding is determined through state wide revenue projections that are paid to individual school districts based on pupil counts and other factors in the state school fund revenue formula. Since these projections and pupil counts fluctuate they can cause either increases or decreases in revenue. Due to these future uncertainties at the state level, the future effect on operations cannot be determined.

The COVID-19 outbreak in the United States has caused substantial disruption to business and local governments due to mandated and voluntary suspension of operations and stay at home orders. There is considerable uncertainty around the duration of the outbreak and the long-term impact to the overall economy. However, the ultimate impact in the District's finances is not determinable.

**Independent Auditor's Report Required by Oregon State Regulations**

We have audited the basic financial statements of the Sweet Home School District No. 55 (the District) as of and for the year ended June 30, 2023, and have issued our report thereon dated December 2, 2023. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and Government Auditing Standards.

**Compliance**

As part of obtaining reasonable assurance about whether the basic financial statements are free of material misstatement, we performed tests of compliance with certain provisions of laws, regulations, contracts, and grants, including the provisions of Oregon Revised Statutes as specified in Oregon Administrative Rules 162-10-000 through 162-10-320 of the Minimum Standards for Audits of Oregon Municipal Corporations, noncompliance with which could have a direct and material effect on the determination of the basic financial statements amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion.

We performed procedures to the extent we considered necessary to address the required comments and disclosures which included, but were not limited to the following:

- **Deposit of public funds with financial institutions (ORS Chapter 295)**
- **Indebtedness limitations, restrictions and repayment.**
- **Budgets legally required (ORS Chapter 294).**
- **Insurance and fidelity bonds in force or required by law.**
- **Programs funded from outside sources.**
- **Authorized investment of surplus funds (ORS Chapter 294).**
- **Public contracts and purchasing (ORS Chapters 279A, 279B, 279C).**
- **State school fund factors and calculation.**

In connection with our testing nothing came to our attention that caused us to believe Sweet Home School District No. 55 was not in substantial compliance with certain provisions of laws, regulations, contracts, and grants, including the provisions of Oregon Revised Statutes as specified in Oregon Administrative Rules 162-10-000 through 162-10-320 of the Minimum Standards for Audits of Oregon Municipal Corporations.

**OAR 162-10-0230 Internal Control**

In planning and performing our audit, we considered the internal controls over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the basic financial statements, but not for the purpose of expressing an opinion on the effectiveness of the internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the internal controls over financial reporting.

This report is intended solely for the information and use of the Board of Directors and management and the Oregon Secretary of State and is not intended to be and should not be used by anyone other than these parties.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND  
ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS  
PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the basic financial statements of the governmental activities and each major fund of the Sweet Home School District No. 55 as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the basic financial statements, and have issued our report thereon dated December 2, 2023.

**Report on Internal Control over Financial Reporting**

In planning and performing our audit of the basic financial statements, we considered the internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the basic financial statements, but not for the purpose of expressing an opinion on the effectiveness of internal control. Accordingly, we do not express an opinion on the effectiveness of internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the basic financial statements will not be prevented, or detected and corrected, on a timely basis.

A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

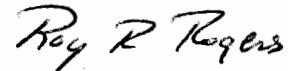

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that have not been identified.

**Report on Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the District's basic financial statements are free from material misstatement, we performed tests of compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the basic financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

**Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM  
AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

**Report on Compliance for Each Major Federal Program**

***Opinion on Each Major Federal Program***

We have audited Sweet Home School District No. 55 (the District) compliance with the types of compliance requirements identified as subject to audit in the *OMB Compliance Supplement* that could have a direct and material effect on each of the major federal programs for the year ended June 30, 2023. The major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2023.

***Basis for Opinion on Each Major Federal Program***

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditors' Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of compliance with the compliance requirements referred to above.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of compliance.

***Responsibilities of Management for Compliance***

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to its federal programs.

***Auditors' Responsibilities for the Audit of Compliance***

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve

collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

#### **Report on Internal Control over Compliance**

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditors' Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

**NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS**

1. BASIS OF PRESENTATION

The schedule of expenditures of federal awards includes federal grant activity under programs of the federal government. The information in this schedule is presented in accordance with the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Because the schedule presents only a selected portion of the operations, it is not intended to and does not present the net position, changes in net position, or cash flows of the District.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported in the schedule are reported on the modified accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowed or are limited as to reimbursement. Negative amounts shown on the schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years.

The District has elected not to use the ten percent de minimis indirect cost rate as allowed under Uniform Guidance, due to the fact that they already have a negotiated indirect cost rate with Oregon Department of Education, and thus are not allowed to use the de minimis rate.
